JUDGMENTS.

In these lists of Judgments the name, alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertain-architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied is $2.50. Record and Guide, Publishers, 14 and 16 Vesey Street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.
When character of roof is not mentioned it is to be understood that the roof is to be of tin.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d—C. a. G. means a deed containing Covenant against grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXII. JULY 30, 1898. 1,535

ALL the buying the recent good news brought into the Stock Market was more than offset by realizing, and as a consequence the end of the week sees the market weaker than it opened. The mistake bulls are making is in overlooking the fact that prices are comparatively high and that all the arguments they use to support their position apply only to times when prices are low. There is not a favorable event that has occurred recently that had not been anticipated and discounted. Besides this the near future promises to create some momentous issues the bearing of which, if they really do eventuate, it is not possible at this moment to define, and this naturally creates caution among thinking people. The prospect of another movement of gold this way is one of those things, previously alluded to, that have their best effects when prices are low. This movement, if it attains large proportions, as it may easily do, will surely be accompanied by the selling of our securities from London as the last one was.

AMONG the British railroad companies which increased dividends for the past half year is the City and South London, which operates the pioneer electric railroad in the metropolis. The dividends have risen steadily from a half of one per cent. for the first half of 1892 to 2½ for the six months ended June 30th. On the strength of this success a number of other short electric underground railroads have been projected, one of which, the Waterloo and City, was recently opened. Is there any lesson for the City of New York in these circumstances? A bill is now before the French Parliament to permit the creation of agricultural warrants, by which tenant farmers may borrow money on crops, either in the ground or harvested. It has passed the Chamber of Deputies and is now before the Senate. The object of the bill, as explained by the Minister of Agriculture, is to relieve the tenant farmer from the frequent necessity of putting his crops on the market as soon as gathered to pay the costs of harvesting or debts incurred during cultivation. The Hungarian government has prepared a customs' tariff to be put into execution in case the States Treaty between Austria and Hungary should not be renewed, because of insurmountable obstacles put in the way of its renewal. The Rand gold production for June was 344,670 ozs., the largest in the history of the field. The production for the half-year was 1,961,663 ozs., compared with the following for the corresponding periods of the years named: 1897, 1,388,430 ozs.; 1896, 1,054,503 ozs., and 1895, 1,113,247 ozs. The retrenchment bill in the Argentine Parliament is receiving more favorable attention than was expected. The boundary dispute with Chili promises to be capable of a peaceful settlement; prominent men in both countries having been recently profuse in their expressions of a desire to avoid a conflict. The fact that both republics are seriously embarrassed financially has, probably, a good deal to do with the pronouncement of these pacific views. Eastern merchants, the world over, are waiting anxiously for the report of the British Government Committee on the Indian currency, which is expected soon to appear. Since its appointment the scope of the Committee's inquiry has been broadened very considerably. They have power to consider not only the Indian Council proposals for the creation of a gold standard, but also the advisability of re-opening the Indian mints to the free coinage of silver. In the event of the latter remedy for India's currency troubles being suggested it is thought that it will be accompanied by a recommendation, if not a condition, that negotiations be opened with other silver-using countries, the United States and France, for instance, for co-operative action.

THE conflict of opinion that has arisen among the collectors of internal revenue referred to in another column, as to whether a receipt for rent requires to be stamped under the War Revenue Law, makes it absolutely necessary that a decision should be obtained from the Treasury Department which will guide the collectors and serve as a basis for further action by property-owners, if any should be needed. In order that this decision should be a just one, steps should be taken to acquaint the Treasury Department with the circumstances and facts of the case. To our mind the difficulty is a comparatively simple one. Leases are taxed various amounts, to be represented by equivalent stamps affixed, according to the length of their terms, the minimum tax being twenty-five cents. It has been the custom, particularly in the tenement districts, to use a form of receipt which is at the same time a lease, inasmuch as it sets out the conditions of living and occupancy. Such receipt-leases, as they may be called, whenever used must, of course, be stamped. But this difficulty can be gotten over by a simple change of practice which will suggest itself to the minds of owners and agents, if it has not already done so. That is our view. But some collectors hold that the War Revenue Law is so worded that any receipt for rent, being a memorandum relating to the hire, etc., of land or tenement, must be stamped. This, to our mind, is a strained and unfair reading of the law, and we do not think it will be adopted by the law advisers of the Treasury Department. If such should be the ruling it will create for property-owners hardships and injustice never intended to be created by Congress. For instance a tax of twenty-five cents on every monthly receipt would, in innumerable instances, especially in the poorer sections of the city, entirely wipe out the property-owners' income, and he would either have to suffer the loss, or protect himself by raising rents and, in the latter case, the still poorer tenant would have to bear the burden of the unjust and onerous tax. Still harder cases would arise where rents are accepted in small installments, according to the ability of the tenant to pay for the time being. However, we think it is only necessary that the Washington officials should be informed of the facts to obtain from them a fair ruling.

NEW BUILDING LAWS.

SEVERAL of the larger cities in the United States within the past year or two have so thoroughly amended and changed their respective building ordinances as in effect to provide for themselves new ones. Chicago is one of the latest of the great cities to issue a new building ordinance, the work of a commission of nine members appointed by the Mayor, with the concurrence of the City Council, and made up of three aldermen, one architect, one insurance underwriter, two builders, one real estate agent and one civil engineer.

A comparison of some of these latest ordinances—say Philadelphia's, St. Louis', and Chicago's—one with the other and each with the New York law make a very interesting study and reveal how varied are the ideas of lawmakers as to how the public safety can best be conserved in providing specifically for the construction of buildings. The New York law has served as the main guide in every instance, the exact wording being frequently taken, but nearly always more or less eased up. The new ordinances contain very few features relating to construction that are not included in the New York law, but in detail each new ordinance deserves the closest attention and study by those who are to draft the Building Code for Greater New York. If the technical features of the present New York law are found to be too stringent for other large cities, then the coming commission of revision should tone down the New York requirements, for while it is all very well to say, as is so frequently said, that this city should set an example in building safely and well, yet when there is no good reason why buildings of the same class in one large city should not be as well constructed as in another, New York is put to a disadvantage in cost by being compelled to do much that is elsewhere deemed to be unnecessary.

The Greater New York, made up as it is, of densely populated sections, of sparsely populated sections, of villages and of farming lands, will call for the most careful consideration in the formulation of a code of building ordinances, and in performing this task doubtless many excellent suggestions are to be found in the latest building codes of other cities. At the same time New York's new code should not be in any part a copy of the codes adopted in any other city. New York has always led, and other cities have followed, and this order of things should continue. No other building law is as full and complete as the New York law of 1892, none other so simply expressed nor as well put together in the sequence or order in which buildings are erected from the excavation to the constructional finish.

If the new building code for Greater New York, a code which is to be applicable to more diversified territory than is included within the boundaries of any other city in the world, is to hold its own against all other cities—more, if it is to stand as a model for other cities great or small to copy—then this important work should be entrusted only to the hands of those who have

had experience in such matters and who will amplify and extend the existing laws in a spirit of friendliness and justice to the building and real estate interests, while at the same time providing for all reasonable security to life and property in the public interest.

As our readers know, more than a month has passed since the Council of the Municipal Assembly passed the resolution providing for the appointment of a commission to draft a new building code. That resolution was at once sent to the Board of Aldermen and there referred to its law committee, but as yet has not been reported back to the Board for final action. This delay may be accounted for on the proverbial ground that great bodies move slowly, or it may be accounted for on the ground that it must be first made clear to the party managers who the commissioners are likely to be. The resolution provides that the commission is to be nominated—not appointed, only nominated—by the President of the Council. President Guggenheimer's interests in and knowledge of real estate and building affairs are such that there is every likelihood of his naming a competent commission. The resolution provides that the commission shall report the new code on or before the first stated meeting of the Municipal Assembly in November next, and if this requirement is to be met there is no time to lose in setting the commission to work. The new building code ought to be established before the Legislature of the State meets in January next, as otherwise the reasons that prevented changes in existing building laws last year, which were based principally upon the existence of the Charter provisions for the establishment of an entirely new building code, will no longer apply with any great force if the people of New York City have not themselves acted through their local Assembly, and we may then look for a crop of piecemeal building law legislation at Albany that will prove embarrassing when later the mere table work of drafting a systematic code is begun. At best the time is all too short between now and November, or even January next, in which to draft a building code that will be complete enough and perfect enough to stand the test of all fair criticism, and therefore the sooner the work is undertaken the better.

WAR TAX QUERIES

Several questions relating to war taxes directly affecting real estate have come up this week. First let it be stated that the point as to whether the stamps on conveyances shall represent the equity or the total value of the property conveyed remains as stated last week, the Treasury not having yet decided the point.

The most important matter under consideration at the present moment is, whether receipts for rent must be stamped. Collector Moore, of Brooklyn, holds that they must. In this he is supported by Collector Treat, of New York, who states that the word "memorandum," in the following extract from the act brings rent receipts of all kinds within its provisions: "Lease, agreement, memorandum, or contract for the hire, use, or rent of any land, tenement or portion thereof." On the other hand, Collector Eidman, also of New York, holds in effect that a receipt for rent requires to be stamped only when it is also a lease, a view that has been held all along by the Law Editor of the Record and Guide. Collector Eidman bases his opinion upon a decision of Internal Revenue Commissioner Scott, in which he says "any receipt or instrument setting forth any terms of a lease must be required to be stamped as a lease unless there has been a separate lease made in the case which has been duly stamped, in which event the receipt, though containing the terms in question, does not require a stamp."

A ruling, received this week from Washington, dealt with the question of taxing certificates of agreement. It held that, for uniformity of practice, all certificates of acknowledgment in completion of stamped instruments in writing are not required to be stamped as certificates. When such certificates of acknowledgment not exempt by reason of being issued in the exercise of official functions, are applied to unstamped instruments in writing a stamp tax of 10 cents is to be collected. This decision seems to cover the question whether a revenue stamp was required on an article of agreement for the sale of real estate, which was submitted to Collector Treat some time ago and by him referred to Washington. It seems to place such an agreement of sale between individuals under the section of the law which reads as follows: "Contracts, broker's note, or memorandum of sale of any goods or merchandise,stocks, bonds, exchange, notes of hand, real estate, or property of any kind or description, issued by brokers or persons acting as such, for each note or memorandum of sale not otherwise provided for in this act, ten cents."

Register Isaac Fromme is quoted as saying that if deeds naming a nominal consideration were presented he would continue to record them. Mr. Fromme has decided, however, that such deeds are invalid until the full amount of the tax required under the law is paid, and that the failure to pay renders the person responsible liable to criminal prosecution. The deed becomes valid, however, at any subsequent time when the full amount of the tax is paid.

To the Editor of THE RECORD AND GUIDE:

Kindly inform me in your next issue whether it is the duty of every notary public or commissioner of deeds to put a 10-cent stamp to each acknowledgment, or a 10-cent stamp to every name acknowledged, and where the case may be about a corporation?

Answer.—No stamp is required upon an acknowledgment.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

You will do a favor by answering the following in your next issue: Can a mortgage be put on record in the Register's Office which is dated the 1st of January, 1898, and executed the 12th day of February, 1898, without paying the internal revenue tax on same?

Answer.—So far as I know there has been no ruling by any internal revenue commissioner upon this precise point, but it is my opinion that no stamp is required. The stamp is not to be affixed when the mortgage is recorded, but when the same is "made, signed or issued." The mortgage in question was made in February, 1898, and hence no stamp is required.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Does each lease held by the lessee and lessor require a stamp tax providing lease is for more than one year, or will a stamp on lessee's lease only be sufficient?

Answer.—If the leases are executed in duplicate I think a stamp on each is required.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

By letting me know if monthly rent receipts such as are usually given tenants of flats or tenement houses require war tax stamps, and how much, you will confer a favor.

Answer.—A receipt that is also a lease must have a 25-cent stamp affixed if the term does not exceed one year.—Editor Record and Guide.

DISTRIBUTION OF CONVEYANCES AND MORTGAGES.

Supplementary to the elaborate tables relating to real estate and building, which were published in these columns last week, the table below, distributing the conveyances and mortgages for the past quarter, is given. This distribution of the quarter's business does not display many new features of importance. Like those made for preceding periods, it shows that great comparative dullness exists in the lower portions of Manhattan, and the greatest activity in the upper portions, and in the Bronx, and though these even show some lessening of activity compared with the preceding quarter and portions of last year. The sections between 4th and 34th streets have, judging from a comparison of the table below with that for the first quarter of the year, which was published in our issue of April 23d last, been more active than other downtown sections. It will be noted that the number of conveyances in the first quarter of the year was 4,163, while that for the second quarter was only 4,141, showing a slight falling off for the two boroughs as a whole. Between 4th and 14th streets and 3d and 7th avenues there were in the first quarter 32 conveyances, in the second quarter 42; between 4th and 34th streets, east of 3d avenue, there were 119 conveyances in the first quarter, and 157 in the second; between the same streets, and west of 7th avenue, there were in the first quarter 92 conveyances, and in the second 119; in the section, 14th street to 23d, between 3d and 7th avenues, there were 55 conveyances in the second to compare with 33 in the first quarter. But in the remaining section, 23d to 34th street, 3d to 7th avenue, there was a falling off, the figures being 67 for the first quarter and 54 for the second; this, however, is the only section in this important piece of territory of a mile and a-half between the two rivers that shows a decline. Other features in the table commend themselves to attention:

AN UP-TO-DATE TRUST COMPANY.

The North American Trust Company announce that, as the United States military authority is now established at Santiago de Cuba, insuring local peace with full security of person and property, they have made arrangements to establish a branch there, and are prepared to buy and sell drafts on Santiago, and to make payments on that city under instructions from their customers. The company are also prepared to receive the deposits of the soldiers and sailors now in Cuba, and, under their directions, to make remittances to their families in the United States. The company have already established relations at Manila, Philippine Islands, with the Chartered Bank of India, Australia and China, sufficient for the present needs of our manufacturers, merchants, travelers, soldiers and sailors. The North American Trust Company, in a circular to the public, says: "with the conclusion of a treaty of peace between the United States and Spain, it is generally expected that new fields for investment will be opened in all lines of trade and manufacturing, as well as in city properties, winter homes, electric plants, railroads industrials, sugar and tobacco plantations. Many investments of this character will be presented to the public, and it will require the close discrimination of experts in each particular line to decide whether or not they are meritorious and desirable investments. The North American Trust Company are prepared to investigate and report in an advisory capacity in behalf of customers, and to further facilitate their business in Cuba, Porto Rico and the Philippines, by holding in trust properties, contracts, mortgages and bonds, either pending the closing of negotiations or for a more extended or more definite period." The company's bankers in London are Robarts, Lubbock & Co., and the City Bank, Limited. They have also an office of their own in that city, No. 95 Gresham street, and house correspondents in all the capitals and principal commercial centers and seaports of the world.

CITY BONDS.

Comptroller Coler advertises the sale of $12,688,992.36 3½% gold bonds, of the City of New York. Bids will be opened at his office Aug. 8, at 2 p. m. These bonds are part of the $23,000,000 issue, which recently gave rise to a four-weeks' deadlock in the Board of Aldermen. The purposes for which the proceeds of the bond sale are to be used are as follows: $300,000 for the erection and equipment of an addition to the American Museum of Natural History; $250,000 for a second addition to this museum; $50,000 for bridges over the tracks of the New York Central Railroad at Grand avenue, Walton avenue, and River avenue, and over the tracks of the New York & Putnam Railroad, at Fort Independence street; $500,000 for the Riverside Drive extension; $50,000 for the Rivington street public bath; $500,000 for an extension of the Metropolitan Museum of Art; $60,000 for paving Jerome avenue; $140,000 for construction of the Melrose avenue viaduct; $554,844.83 for construction of Willis avenue bridge over the Harlem River; $1,620,785.41 for new school houses and school sites; $2,000,000 for the new East River Bridge; $1,738,362.12 for acquiring lands for a park bounded by 111th street, 114th street, 1st avenue and East River; $300,000 for water mains; $350,000 for the sanitary protection of the sources of the water supply; $2,000,000 for the aqueduct; $75,000 for an addition to the public building in Crotona Park; $250,000 for furnishing and equipping the court house of the Appellate Division of the Supreme Court;

$50,000 for the erection and equipment of a hospital building in Gouverneur Slip; $1,600,000 for docks, and $300,000 for new buildings for the Correction Department. The remainder of the $23,000,000 bonds will be issued later in the summer.

COPIES WANTED.

We will pay a liberal price for copies Nos. 930 and 1526 of the Record and Guide, delivered at our office in good condition.

The Real Estate Market

Real Estate Market.

This has been a veritable week of summer dullness in the private sales market, as will be seen by the contents of succeeding columns, none of which calls for special comment. The record for the week is 37 transactions reported, 9 with considerations, which make a total of $396,650. Corresponding figures for last week were 36, 9 and $1,075,000, respectively, and for the week before 31, 5 and $187,000, respectively.

The following are the comparative tables for the New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897.

The auction market of the week was the tamest conceivable. The list of offerings was not only short, but was wholly made up of unimportant parcels, brought to the market through failure of mortgage conditions. The results will be found in another column. The adjournments to dates beyond the coming week were: Lot on St. Nicholas place, east side, 174 feet south of 153d street, by Philip A. Smyth, to Aug. 16; No. 515 West 145th street, by Bryan L. Kennelly, to Aug. 29; Nos. 110 and 112 Edgecombe avenue, by Samuel Goldsticker, sine die.

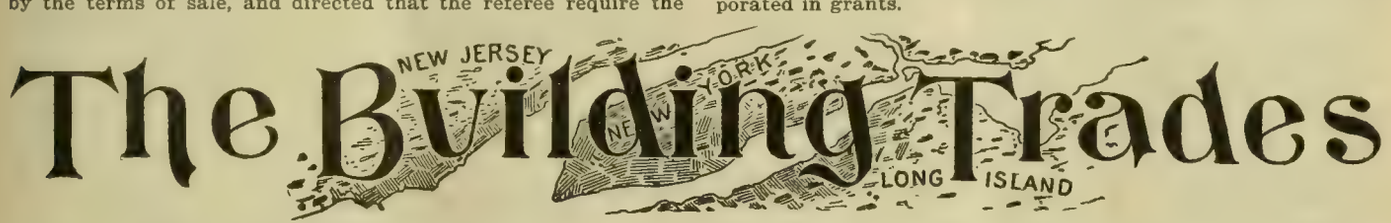
REAL ESTATE NOTES

Arthur R. Parsons left during the past week for the Thousand Islands where he will remain for about three weeks.

The will of the late Stephen Van Rensselaer Cruger has been admitted to probate. The estate is left entirely to the widow, who is also named sole executrix.

William Rosenzweig, real estate broker, left yestedray for Long Branch; from there he will go to Saratoga, and then to the Catskills, returning to the city the first week in September.

The opposition of the city to the laying of the double tracks for underground electric railroads on Amsterdam avenue has been partially sustained by a decision of Justice Russell in the Supreme Court, in which a peremptory writ for a mandamus to compel the issue of a permit for the work was refused and an alternative writ only granted.



In a foreclosure action, Justice Laughlin has denied a motion that the referee make good a deduction from the bid which he allowed to the purchaser for items of rent and interest. The Justice found, however, that the deductions were not authorized by the terms of sale, and directed that the referee require the purchaser to pay the full amount of the bid before giving him a deed.

Chancellor McGill, of New Jersey, recently decided that a flat is not a "private dwelling," and, apparently in default of knowing what to call it, said it was a "community" house, a term by reason of suggesting a too common use, is as inappropriate as the other. As a matter of fact, "a flat" is a collection of private dwellings, bound together by common halls, and all enclosed in one set of four walls, for which the correct name has yet to be found.

Permission has been given by the Railroad Commission for the construction of three railroads in New York City to be operated by electricity. The companies authorized to construct these roads are the King's Bridge Railway Co., which will operate a road from Manhattan street to Yonkers, over the Boulevard and King's Bridge road; the North End Street Railway Co., to operate a road from 130th street and the Boulevard, over the Boulevard and King's Bridge road to 145th street, and over that street to the Harlem River; and the Fort George and 11th Avenue R. R. Co., to operate a road from the junction of the King's Bridge road and the Boulevard over the Boulevard to 175th street. The first two permissions were granted on the stipulation by the two companies that they would use but one set of tracks on that part of the Boulevard where their routes are coincident.

The four-story dwelling at the southwest corner of St. Nicholas avenue and 149th street, and No. 773 St. Nicholas avenue, adjoining, which were sold at foreclosure on Thursday, realizing $49,200, are the two houses which were traded some four years ago by W. Broadbelt with William L. Loew for No. 60 West 52d street. The St. Nicholas avenue houses figured in the trade at $72,000, and the 52d street house at $45,000. Mr. Loew refused to take title, claiming that the bay windows were an encroachment on the street. Mr. Broadbelt began suit to enforce the contract, and has so far been successful, having obtained decisions in the lower courts in his favor, and the case is now before the Court of Appeals, having been carried there by the defendant, who gave a bond for $10,000, which was approved by the Court. But the sale this week is an illustration of the injury done by the law's delay.

An Albany dispatch says: The State Commissioners of the Land Office have disposed temporarily of the 18 pending applications for grants of land under water in New York City. The Dock Board of New York City claimed that the State Land Board should not grant to individuals any rights to lands under water in that city except under conditions suggested by the Dock Board. Among the conditions was one providing that if at any time the city needed any lands so granted it could take them without compensation and without regard to any improvements or buildings erected thereon at the expense of the grantees. This restriction was objected to by the applicants, and by the Land Board. To settle the matter the Land Board has granted the Whittemore application and tabled the others pending a test suit to determine whether the conditions suggested must be incorporated in grants.

Building Material Market.

There were few changes in the prices of building materials this week and the markets as a whole were very dull. The only notable circumstances and changes in quotations were the following: BRICK.—The arrivals amounted to 45 barges and the sales to 49 barges. An expected close of the Haverstraw strike, which, however, was not realized, caused other manufacturers to rush their product to market as fast as they could get it out. Quotations are $5.50 @6.00 for hard, and $3.75@4.00 for pale, the latter were in good demand at the figures named. CEMENT.—Approved A1 brands sold out; prices unchanged; demand fair. LIME.—Arrivals, about a dozen schooners; prices dropped to 70c. for common and 80c. for finishing. LATH.—None in market; one cargo was sold early in the week at $1.60; prices likely to advance. NAILS.—Quotations for wire dropped to $1.25@1.30 in carload lots f. o. b. mill, Pittsburg base, and to $1.40@1.45 for carload lots on dock, New York. The new organization, the American Wire and Steel Co., is engaged in a struggle with its men over the wage scale. OILS.—Prices of seed declined to 93c., accompanied by the reports of the embarrassment of the National Linseed Oil Co. Other staples are unchanged.

ESTIMATES RECEIVABLE.

By the Supervising Architect, Treasury Department, Washington, D. C., until 2 p. m., Aug. 22, for the low pressure, return circulation, steam heating and ventilating apparatus for the U. S. Custom House and Post Office building at Paterson, N. J., in accordance with drawings and specifications, copies of which may be obtained at Washington, or at the office of the Superintendent at Paterson.

By the Commissioner of Bridges, Stewart Building, Broadway and Chambers street, until Aug. 4, at 12 m., for constructing a protection for the foundations of the bridge crossing Newtown Creek, from Grand street in the Borough of Brooklyn, to Grand avenue in the Borough of Queens.

By the Police Department, No. 300 Mulberry street, until Aug. 12, at 10 a. m., for furnishing submarine electrical conductors.

BROOKLYN.

Stuyvesant avenue, east side, block front between Pulaski and De Kalb avenues, 200x125; also block front between De Kalb avenue and Kosciusko street, 200x100. This property, which has been purchased by Louis Beer, of the firm of Beer & Schaffner builders, No. 1124 Myrtle avenue, will be improved by the erection of two rows of modern apartment houses.

Clinton street, Nos. 286 to 290. Charles Wells, the proprietor of the Wells House, on Clinton street, who also owns Nos. 286, 288 and 290, opposite, on which there are two 4-story and extension brick houses, and a 3-story brick house. The latter, No. 290, will be taken down by Mr. Wells for the purpose of erecting a third 4-story brick house, with an extension that will be carried in the rear of Nos. 286 and 288, the whole to cost about $35,500. The plot is 75x100 feet, and on the completion of the new structure the whole will be thrown into a modern apartment house.

Rutland road, east cide, between Rogers and Nostrand avenues three 2-story frame dwellings, 20x45; cost, $12,000; J. Eagan, No. 550 Flatbush avenue, owner and builder; A. White Pierce, No. 1127 Flatbush avenue, architect (plans only).

OF INTEREST TO THE BUILDING TRADES.

Lawrence Buckley, No. 146 West 104th street, has been admitted to membership in the Builders' League.

All the windows in the first floor of the U. S. Treasury Building, Nassau and Wall streets, will be replaced at a cost of $6,000, with iron sashes glazed with plate glass.

Leonard K. Prince, of the Prince & Kinkel Iron Works, left the city last Thursday for Bar Harbor, where he will remain for a short time before proceeding to his summer home at Brookfield, Me.

Plans have been nearly completed for the repaving of Mail street and the erection of an iron shed along the north wall of the Post-Office, at a cost of about $20,000. Work on both operations will begin as soon as the plans can be finished and the contracts let.

Justice Pryor, in the Supreme Court, this week, held that when bids are advertised for by the city, they must be opened by the officer authorized by the statute, or, if opened by a subordinate, that such opening must be public, and in the presence of the officer who advertised for the bids.

An unexpected obstacle to the erection of ex-Governor Morton's projected building at Nos. 110 to 116 Nassau street, is found in the refusal of a tenant, Rafael E. Boitel, a Cuban cigar dealer, to surrender his lease for less than $20,000. Boitel pays $800 a year for a stand about four feet in width, and his lease runs until Aug. 1, 1900.

Mayor Van Wyck's appointees as Commissioners of the new East River Bridge are legally entitled to office, according to a decision handed down by the Appellate Division of the Supreme Court in the Second District this week. The opinion is written by Judge Edgar M. Cullen. This is the reverse of the decision rendered by Judge Garretson of the Supreme Court at the time the old Commissioners sued for their reinstatement.

Capt. James K. Holmes, senior member of the firm of Holmes & Philbrick, dealers in building materials, foot of East 97th street, died this week at Kingston, N. Y. He was a prominent member and an ex-President of the Building Material Exchange, which was closed on Wednesday afternoon, when the funeral took place as a mark of respect, which was emphasized by the attendance of a representative committee of the Exchange at the obsequies.

Justice Pryor has denied the application of the city for an injunction restraining James E. Randolph and others from proceeding with alterations to five 5-story brick buildings on the corner of Willis avenue and 138th street. Plans for the alterations were filed in the Building Department and approved, but the approval was withdrawn afterwards. Superintendent Brady then brought his action to restrain the progress of the alterations on the ground that section 503 of the Consolidation Act prohibited their continuance in the absence of the approval. In denying the application, Justice Pryor held that arbitrary power in an official to interdict a citizen in the use of his property must vindicate its right by unquestionable authority. In the present instance, the Commissioner's case was not so clear that he might invoke the aid of equity in the accomplishment of a manifest wrong. The statute permits him to apply for an injunction, but its allowance is not compulsory on the court.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertain-architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a

directory of architects) for the first time in one volume, illustrated, indexed and supplied is $2.50. Record and Guide, Publishers, 14 and 16 Vesey Street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.

When character of roof is not mentioned it is to be understood that the roof is to be of tin.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXII. AUGUST 6, 1898. 1,586

THERE has been and is still a steady buying going on in Wall Street, which has not only kept prices steady, but has advanced them substantially in some cases. The volume of buying is not so great in stocks as in bonds, and is investive rather than speculative. A good investment demand accompanied by moderate speculation is not at all inconsistent and is explained by the plethora of money and the low rates that it is only possible to obtain for its use in the ordinary commercial channels. The reports of the State trust companies and savings banks, filed at Albany, summaries of which have just been published, show how rapidly money is accumulating in the hands of investors. The resources of the trust companies increased in the first half of this year by $43,344,608, and those of the savings banks by nearly $50,000,000 in this State alone. Doubtless, the same condition of things prevails in other States, and it is, therefore, not surprising if the markets are scraped over and over again for secure and paying investments. Under no other conditions would it be possible for the new railroad four per cents., which have become such favorites with investors, to occupy the position they do. The old Atchison 4s, which were always well considered until the property lien got into the hands of bad managers, never sold higher than 89 in the best of times. The new 4s on the same property, improved somewhat, it must be admitted, in the matter of property lien, are now selling above 95, and may go to par. And so it is with others, which are steadily bought as if there was nothing else in the world to buy and with the certainty of making only moderate returns on the invested money. The scarcity of good railroad bonds is due, in a considerable degree, to the restrictions that were put upon railroad extensions for some years past. When quotations were very much lower than what they are now we pointed out this fact to our readers, over and over again, and drew attention to the excellent position this would give railroad securities whenever business became good. The business has been good for some time, and the results to securities are exactly what we predicted. Now with prices advanced so much in the well-known issues, it is hard to see how they can go much higher, and it would be better, we think, to watch for favorable developments in the less known ones and for new issues of promise which the confidence and enterprise of the country are sure to produce from time to time, than to continually force up quotations that are already unprecedentedly high.

IN the European markets the only government bonds in which there seems to be any special interest, outside of the little flurry caused by the reports of another clash in China, are Spanish 4's, which, having advanced considerably, maintain their gains. It is evident from this that Europe, as a whole, expects the negotiations for peace now afloat to be carried to a successful conclusion, and without any serious outbreak of indignation from the Spanish people. Based upon such an opinion the advance in the 4s is logical, inasmuch as Spain will be financially much better able to pay the interest on them and meet them at maturity than while rebellious colonies were draining away her life's blood. The work of promoting new enterprises goes on with increasing pace in London. The total offered for the first seven months of the year amounts to about £117,000,000, compared with say £93,000,000 in the same time last year, and £157,299,000 for the whole of 1897. The Hooley disclosures do not seem to check this business, though they cannot fail to influence the minds of investors. The report of the foreign trade of Japan for 1897 has recently been issued and its most remarkable feature is the enormous growth in the trade it shows with the United States, imports therefrom having increased from 16,373,419 yen in 1896 to 27,030,687 yen in 1897, and exports thereto from 31,532,341 yen in 1896 to 52,436,404 yen in 1897, a total increase in one year of 32,000,000 yen. According to the report of the State Mining Engineer, the number of gold and coal mining companies actually at work in the Transvaal in 1897 was 218. Of these the total working capital was returned at £63,188,000, as compared with £55,358,000 in 1896, an increase of £7,830,000, or a little over 14 per cent. Of this capital £40,833,000 was paid out to sellers, vendors, etc. Out of the 218 companies working only 28 gold and 2 coal companines paid dividends during the year. The capital represented by these companies was £10,856,000, while the amount paid as dividends was £3,001,000, or an average of about 30 per cent. In 1896 the dividends amounted to £1,794,000, so that the returns in 1897 showed a marked increase. Improved weather has revived hopes for a good harvest in Austria. In Hungary harvesting has so far advanced that results can be fairly well predicted. While the damage done by the violent storms of June and the early part of July removed expectation of a bumper crop, there turns out to be an average yield of excellent quality. Owing to the fineness of the grain there will be a larger amount available for export than for several years past. The foreign trade reports are somewhat uninteresting reading, but while they dwell a good deal upon dullness, that term has a different signification, owing to the volume of the business being done, than it usually has. Money is plentiful with rates low, with only a vague possibility that the fall demands for harvest and revived industry may raise rates.

THE HEIGHT FOR NON-FIREPROOF APARTMENT HOUSES

THE question as to the maximum height to which a non-fireproof apartment house can be built under the present laws has for some months past been the subject of considerable discussion among architects and builders, owing to the opinion of the Counsel to the Building Department that such a building cannot be erected to the height of seventy-five feet on a street sixty feet wide, but may be erected seventy feet in height, the height to be taken through the center of the facade, and to include the cornice. The building law provides that all buildings, excepting only hotels, theatres, hospitals, asylums, public institutions and school houses, may be erected non-fireproof to a height not exceeding seventy-five feet from the curb level at the center of the building to the highest point of the roof beams—not including cornices, parapets, etc. That height was established by the act of 1897. In the same year the special law limiting the height of dwelling houses was so amended as to make up what was practically a new law. The question as to the height for apartment houses on the ordinary street turns on the construction of the law as so amended.

The law limiting the height of apartment houses was passed in 1885 and stood without a change until 1897. The old act prohibited the erection of houses to be used as dwellings for more than one family to a height greater than 70 feet upon all streets and avenues not exceeding sixty feet in width, and 80 feet upon wider streets and avenues, the heights to be measured from the sidewalk line up "through the center of the facade, including attics, cornices and mansards." In the Legislature of 1897, Assemblyman Husted introduced a bill, No. 166, to allow fireproof apartment houses to be erected to a height of 150 feet upon all streets and avenues exceeding seventy-nine feet in width, and 100 feet upon streets and avenues of a lesser width. It also provided that the height of such houses, when constructed non-fireproof, should not exceed 70 feet in height, without regard to the width of a street or avenue. In all cases the height was to include attics, cornices and mansards. Mr. Husted's attention was called to the fact that a bill to change the limit of height for non-fireproof buildings from 70 to 75 feet in the building law was pending in the Legislature with every probability of passage, and he at once caused a change to be made in his bill to conform with the greater height of 75 feet for non-fireproof houses, and the bill was reprinted as No. 166, 1049.

It was on this bill that a public hearing was given by the Cities' Committee of the Assembly. The bill was drawn in the interest of the owners of the La Rochelle Apartment-Hotel building for reasons that make up an interesting story but need not be mentioned here. The bill was unsuccessfully opposed by the then attorney to the Building Department. It was supported by representatives of the building interests, and the changes which they asked for were granted; the heights for fireproof apartment houses was left at 150 and 100 feet, these heights to include attics, cornices and mansards, but all reference to the height for non-fireproof apartment houses was stricken out, so that the height provided by the building law proper should control—namely, 75 feet for non-fireproof buildings—and so that the non-fireproof class of apartment houses could have the benefit of not having to include cornices, which almost invariably rise above the highest point of the roof beams, in the measurement for height. The attorney for the Building Department declared

at the hearing that the bill would give builders the right to erect apartment houses without regard to the many safeguards contained in the building law, and the Chairman of the Cities' Committee, believing that there might be something in that point, called for and was immediately furnished with the wording to overcome this objection, and the same was incorporated in the bill, Section 3, of the law as it now is: "All statutes in force at the time of the passage of this act, except as herein modified, relating to buildings in the City of New York, shall apply to the buildings hereinbefore referred to."

It is because of this very wording that the present ruling in the Department of Buildings is made to the effect that a portion of the act of 1885 is still in force limiting non-fireproof apartment houses to a height of 70 feet on streets 60 feet or less in width; but with much inconsistency the Department refuses to allow a height of 80 feet for such buildings on streets wider than 60 feet. If one provision of the old law is still in force the other is also. The Legislative intent in the amended special act was not only to provide greater heights for fireproof apartment houses, but to leave the question of height for non-fireproof apartment houses to the restrictions for height provided by the building law for buildings when not constructed fireproof, and altogether to supplant the old and short act of 1885 with the new and longer act of 1897.

Perhaps a legal construction will defeat what was intended to be accomplished by the changes in the law, for the uncertain outcome of questions in law is universally known. The difference of five feet added to the difference between the measurement to the highest point of roof beams or to the top of the cornice goes to make up one story more or less on a building. It is said that a well-known gentleman, himself a lawyer, and who has done much building, is having plans made for several non-fireproof apartment houses 75 feet in height, exclusive of the cornices, to be erected on a street 60 feet in width, and that he intends, if these plans are rejected by the Building Department on account of height, to institute proceedings that will result in a judicial determination of the question.

WAR TAX QUERIES.

Among the many questions that have been addressed to the Internal Revenue collectors this week, none has been more important, or attracted more attention, than that as to whether the common form of monthly rent receipt, where there is no lease, has to have a 25-cent stamp affixed. The answer has been invariably in the affirmative. It is not claimed by those whose duty it is to administer the law that a mere bald receipt for rent received must be stamped, but always that a receipt which contains the terms of the tenancy must be. The matter is, however, by no means finally disposed of. The Federal officials who have to carry out the law are evidently only averse to approving a form of receipt which would make leases unnecessary, and so deprive the government of the revenue it is entitled to from leases. To meet the difficulty several suggestions have been made. One is that a lease be always made in the first instance and duly stamped, and that receipts thereunder be given from time to time as rents are paid. Another is that rent-books be substituted for the forms now employed. On the inner cover of the book the terms of the lease could be set out and the same stamped, and the inner pages used for simply acknowledging payments, which would conform to those called for by the terms of the lease expressed on the cover of the book. Such a book might suffice as long as the tenancy should endure. Yesterday Collector Treat informed a Record and Guide representative that a form of receipt had been submitted to him for approval which he had forwarded to Washington with his suggestion, and was hopeful that the decision of the authorities thereon would provide a speedy solution for the difficulty, and one satisfactory to all concerned. Meanwhile the collectors would take no action to compel the stamping of the receipts in use. This, of course, suspends discussion until the decision is received.

Regarding the liability of real estate brokers to pay the brokers' tax, the Internal Revenue Department holds that "a person is not a broker within the meaning of the second paragraph of Section 2 of the Act of June 13, 1898, by reason of engaging in the business of buying, selling, or leasing real estate, or because of negotiating loans on real estate as an agent, where there is no sale of the securities; but if he makes loans for himself or others, and afterwards sells the securities, this brings him within the definition of a broker in the Act, and he is required to pay special tax accordingly." The Department has also held, later, that there is no provision in the act under which a special tax can be held to be imposed on real estate agents, or any person or firm for simply buying or selling real estate on commission for themselves or others.

In reference to the direct inquiry relating to the stamping of the deed for Nos. 54 and 56 Bleecker street, Commissioner Scott has replied to Collector Treat: "In relation to real estate property subject to a mortgage, of which the value or price is $233,000, and the mortgage is $160,000, leaving a so-called equity of $73,000, you ask what should be the consideration to be taxed in this case. In reply you are informed that the consideration taxable in this case is $233,000, and the deed should be stamped in accordance therewith. The contrary doctrine stated in a letter to ——— ———, of New York City, is not now approved by this office." This, of course, will guide in other similar cases, and is in effect a ruling that the tax on conveyances is on the value of the property and not on the equity conveyed.

One of the questions asked this week was: "Do notarial acknowledgments to deeds, mortgages, or other instruments require to be stamped?" The answer was, "They do not, if the deed or other instrument is required to be stamped." Another question was: "Do contracts for sale or assignment of a bid on auction sale of realty require to be stamped?" And the answer: "If the contract of sale does not vest any title, and is merely a memorandum of purchase, it does not require to be stamped. The assignment of the bid on auction sale of realty does not require to be stamped."

An inquiry has been made as to whether contracts for building are subject to tax, also architects' certificates for payments issued in accordance with the requirements of contracts; if taxable, the amount of tax. "The Journal of Commerce and Commercial Bulletin," to whom this query was addressed, replies: "The War Revenue Act imposes no tax on a building contract. An architect's certificate, so long as it is nothing more than that, requires no stamp; but if, by indorsement, it is changed into an order for the payment of money, then it would probably be held taxable like other orders for the payment of money."

The following are taken from the collected rulings of Commissioner N. B. Scott, on points raised in connection with the War Revenue Law, published by the Treasury Department under date of July 13:

Real estate mortgage notes require to be stamped, in addition to the stamps placed on the mortgage.

In cases of loans on real estate, where promissory notes are given, which are not paid at maturity, but of which an extension of time of payment is granted, without the taking of a new note, it is held that every such extension is a renewal of the note within the meaning of the statute, and that the requisite stamp must be affixed for every such renewal or extension. This also applies to notes discounted before July 1, falling due on or after that date.

Bonds "required in legal proceedings" are exempt from stamp tax. They are such as are required in litigation in either civil or criminal cases such as prosecution bonds, injunction bonds, bonds to stay proceedings, bonds upon appeal, writs of error, bonds for costs and the like; and in criminal cases, recognizances, bonds for appearance, bail bonds, and also bonds in criminal cases upon appeal and writs of error, supersedeas bonds, etc. Bonds given by persons appointed by the court, conditioned for the faithful performance of the duties of their office or position, such as receivers, assignees, executors, administrators, and guardians, are not exempt, and the stamp tax must be paid thereon.

A certificate of search, showing that the dockets or records of a court have been searched, and show either that liens exist or do not exist as to property, or that judgments are recorded or are not recorded, and also certificates of search to ascertain whether or not titles are good, whether taxes have been paid; and other certificates of this character are not such as are required in the general discharge of governmental functions on the part of the officers giving them, but are such as are needed for private use and private interests, and are, therefore, subject to the tax, as being required by law to be given when called for. If the act performed, or the certificate issued by the officer is in the discharge of an official function necessary in operating the general machinery of the Government, it is exempt.

Certificates of acknowledgment of deeds and mortgages are not required to be stamped. The memorandum on the back of a deed or mortgage, made by the register or recorder, that the instrument has been placed upon record, is not a subject of taxation. It is not a certificate such as is contemplated by the law. It is a brief note on the back of the deed or mortgage citing date of filing and date and place of record.

Deeds signed, acknowledged, and fully executed in June do not require stamps, though delivered in July, unless, by State law, registration is necessary to pass title.

As to mortgages, it is the general principle that a mortgage is not valid as such until it is admitted to registration. A mortgage, no matter what the date, should not be admitted to registration when presented on or after July 1, 1898, unless there is attached and canceled the proper revenue stamp.

In cases where the consideration in a deed is nominal, the actual value of the property conveyed should govern the amount of the stamp required.

Original lease requires a stamp. No stamp is required on copy executed by the parties at the time of the original lease.

To the Editor of THE RECORD AND GUIDE:

Does a receipt for each month's rent of house require a stamp (25 cents) when the lease is for the year, payable monthly, and, of course, stamped as required?

Answer.—No.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

(1) Must stamps be placed upon monthly receipts given for rent due prior to, and not paid until after July 1st, 1898; (2) also must acknowledgments and affidavits bear stamps if executed from and after July 1st, 1898?

Answer.—(1) No. (2) No.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Kindly answer in your next edition the following question: For the purpose of obviating the necessity of signing a bond a deed is made to a so-called "dummy bondsman," who at the time of making the mortgage and bond gives back to the original owner a deed, both deeds being for a nominal consideration. Do both or either of them require stamps to any amount?

Answer.—I think the deeds require stamps in accordance with the value of the property, and the mortgage requires a stamp in accordance with the amount expressed therein.—Law Editor.

The Real Estate Market

Real Estate Market.

Our Gossip paragraphs below contain the reports of 28 transactions completed, with the considerations given in 9, and amounting to $346,500. Comparative figures for three previous weeks were, severally and consecutively, 37.9 and $396,650, 36.9 and $1,075,000, and 31.5 and $187,000. Comment upon this is entirely superfluous.

The following are the comparative tables for the New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897:

Only 16 parcels were advertised for sale at auction this week, and of these one was withdrawn, and the sales of 5 others postponed. Nine of the remaining 10 were sold at foreclosure, and the tenth in partition. As the parcels were unimportant and the results of the bidding characteristic only of dull times and poor demand, it is not necessary to supplement the record of the sales, which will be found in another column, by any remarks here. The parcel withdrawn was No. 138 West 87th street. The adjournments to dates beyond next week were: Nos. 235 East 101st street, to 16th inst.; No. 860 3d avenue, to 19th inst.; and northwest corner of 1st avenue and 37th street, and No. 49 Convent avenue, to 24th inst.

Justice Russell, in the Supreme Court, has granted the application of an auctioneer for a peremptory mandamus requiring the City Clerk to issue an auctioneer's license without the payment of the $250 fee imposed by Chapter 682 of the Laws of 1897. The decision was based upon the view that the license provisions of the act named were superseded by those of Chapter 378 of the Laws of 1897, known commonly as the Charter of Greater New York. It was also the view of the Court that Section 6 of Chapter 682 of the Laws of 1897, which makes the auctioneers' bonds prior liens to all other liens or conveyances, or encumbrances upon the property of sureties, is not in force, being destroyed by the power of Chapter 378, Laws of 1897, taking effect at a subsequent date. This decision, until reversed by a higher court, gives an auctioneer a right to a license on giving a $2,000 bond, and removes the cloud that may exist on a surety's realty by reason of his being on the bond.

OUT OF TOWN.

W. F. & C. H. Smith have sold for Frank R. Houghton a residence and a plot of about 60 lots at New Rochelle, N. Y., for $40,000. This is probably a trade with the Bronx Realty Co. for Nos. 1046-1052 Intervale avenue, and No. 1162 and 1164 East 169th street, New York.

REAL ESTATE NOTES.

Broker John P. Kirwan and family are spending a few weeks at Quogue, L. I. Mr. Kirwan will return to town about the 15th inst.

Legal proceedings have been begun to compel the city to fill up the trench on Kingsbridge road, with every prospect of obtaining relief.

The new Third Avenue Bridge was informally opened to the public on Monday last. It will be remembered that the formal opening took place on July 4th.

Alfred E. Marling is back from his extended European trip, during which he visited some of the important places on the continent and thoroughly enjoyed his vacation.

Jacob A. King, real estate broker, who has been ill for the past eight months, is now stopping at Haines Falls, in the Catskill Mountains, trying to improve his health.

Sol. G. Proops is the buyer of Nos. 2206 and 2210 5th avenue, two 5-story flats, sold by Builder N. E. Clark, and mentioned in our issue of July 30. The price was about $50,000.

Nathan and Isidor H. Kempner, of D. Kempner & Son, are at Long Branch, N. J., for the summer, the former at Iauch's Hotel, the latter at the U. S. Hotel; one of them visits town daily.

Emil Unger is the buyer of the three 5-story flats on the north side of 138th street, 206.6 east of Alexander avenue, adjoining L road station on the west, mentioned in our issue of July 2. The price was $70,000.

The loan of $650,000 made by the Bowery Savings Bank to the Mathew Byrnes estate, on the apartment house operation which the estate is building on the southeast corner of 5th avenue and 45th street, was negotiated by Philbin & Beekman, attorneys, of No. 115 Broadway. The rate, 4½%, is indicative of the readiness of loaners to assist building operations, and of the ease of the money market generally.

The State Railroad Commissioners have granted an application of the Third Avenue Railroad Company of New York for permission to change its motive power to underground electricity on all the lines now operated by cables. The decision says: "The board does not at this time pass upon that part of the application which asks that approval be given to the use of compressed air motors and storage batteries in addition to underground electricity."

Word has been sent to the retail dealers on 6th and 8th avenues by President Vreeland, of the Metropolitan Street Railway Company, that, in order to accommodate their customers and themselves, he intended, as pieces of the road were completed, to equip them with horse-cars. Thirteen days after the first pick was put into the ground, a section of 8th avenue and a section of 6th avenue were turned over to the company. The 6th avenue section is from 14th street to 16th, and the 8th avenue section from 54th to 58th.

JULY FORECLOSURE SALES.

The following is a classified tabular summary of the foreclosure sales of last month, compared with the same for the month of July, 1897. It is in our usual form and explains itself:

CONCERNING REAL ESTATE AGENTS AND BROKERS.

Wm. P. Jones & Son, brokers, appraisers and managers of estates, have a well-equipped and centrally-located office at No. 455 9th avenue, near 35th street. They are experienced workers and indefatigable in their efforts on behalf of a constantly increasing clientele, whose numerous properties they successfully and economically manage, this feature of the business receiving the best attention of the firm. Their list of centrally-located West Side properties for sale is carefully selected, and worthy of the attention of buyers. Messrs. Jones & Son's telephone call is 1761 38th street.

The Building Trades

Building Material Market.

The building material market has shown little if any change from last week. The usual midsummer dullness prevails, and there are few new features. In detail: Brick.—Arrivals of Hudson River brick amounts to 59 barges. Demand was good, and absorbed 58 barges. Prices are a trifle easier. Pale brick is coming in slowly, but the inquiry for it is strong. Cement.—The importations of foreign makes of Portland cement are increasing. The offerings at present are seasonably large, and are being absorbed at higher prices than have prevailed for several years. Other cements are unchanged. Lime.—Arrivals of Rockland lime have been moderately large. Supplies have gone readily at the reduced prices—70c. for common and 80c. for finishing. Lath.—No Eastern spruce lath has been in during the week. There are several cargoes on the way, and value is quoted at $1.75 to arrive. Nails.—The strike against the American Steel and Wire Co. is in progress. The question at issue is a cut in wages, and unless an agreement is speedily reached, it will throw over 6,000 men out of work. The market for both cut and wire nails is quiet. Prices show no change from last quotations. Oils.—As seed is down and demand is slow, linseed oil has weakened to 35c. for 5-bbl. lots and over, and 36c. for less than 5-bbl. lots, with boiled and refined 2c. per gallon up from these prices. Naval Stores.—Values in the market for spirits of turpentine have gained ½c. during the week, and the close was firm at 28c. for regulars and 28½c. for machines. Trade, however, was not large. Tar is steady at $1.90@2.00 for regulars, and $3.50@3.62½ for oil-barrels. Pitch is a

OF INTEREST TO THE BUILDING TRADES.

A daily paper says that, after months of scheming, the wall-paper manufacturers have succeeded in forming a combination that includes the entire manufacturing trade of the country.

A Washington dispatch says: Twenty-seven bids were opened at the office of the Supervising Architect for constructing the proposed new buildings at Ellis Island immigrant station. The lowest bidder was R. H. Hood & Co., of New York, $467,000. The highest bid was $639,000.

Harry T. Howell, architect, of No. 748 East 138th street, writes to us protesting against the statement being made that he has been the architect of Henry Muller, who is to build on the west side of 162d street, 74.6 east of Brook avenue, as mentioned in our last issue.

The Board of Walking Delegates has lost still another union, the United Order of American Stairbuilders, which was suspended on Wednesday for refusing to sever its connection with District Assembly 253, K. of L., and the Building Trades Council. In all about seven unions, representing 5,000 members, have been suspended or have left the board.

The following statement shows the number of permits issued for new buildings and alterations in Brooklyn during the month ending July 31, 1898, and the estimated cost of the same: Brick buildings, 110; frame buildings, 163; total buildings, 273. Alterations, 195; total number of permits issued, 468; estimated cost of brick buildings, $863,375; estimated cost of frame buildings, $409,782; total cost of buildings, $1,273,157; estimated cost of alterations, $148,785; total estimated cost, $1,421,942; total estimated cost for July, 1897, $1,257,440; excess in favor of 1898, $164,502.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

JUDGMENTS.

In these lists of Judgments the name, alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertain- architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied is $2.50. Record and Guide, Publishers, 14 and 16 Vesey Street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.
When character of roof is not mentioned it is to be understood that the roof is to be of tin.

WAR QUERIES,

(Continued from page 188.)

To the Editor of THE RECORD AND GUIDE:

Please answer the following questions in the columns of your paper: Do I have to put a 10-cent stamp on a deed for each acknowledgment taken by a notary, there being five parties to the deed?

Answer.—No. The amount of the stamp depends upon the amount of the consideration paid for the property.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Will you please let us know what to do in the following case. In case of a lease made for one year which has been duly stamped as required by law, will each monthly rent receipt require a (25-cent) revenue stamp?

Answer.—No.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Owing to the recent discussion caused by the decision of Collector Moore, of Brooklyn, that all payments for rent require a receipt, which shall be stamped with a 25-cent stamp, I would like to get your opinion as to whether an ordinary receipt for so much money, this money being in payment of rent payable at the end of each month or quarterly, in accordance with a regular lease, requires a stamp. It seems to me that this is not an agreement, memorandum, lease or contract, although the form of receipt may specify the premises for which money is paid. In your answer to a letter published in the issue of your paper of July 23, it would seem that the form of receipt mentioned therein was a distinct contract or monthly lease, but the ordinary form of receipt for rent is not such, with possibly the exception of apartment or tenement property. As the first of August is the time when receipts, especially for down-town property, are given, your prompt reply would be appreciated.

Answer.—My opinion is, and it has been so held, that an ordinary receipt for rent where there is a lease, does not require a stamp. The receipts mentioned in the issue of July 23d are of a different kind. The courts have frequently held that each of such receipts constitutes a contract for a monthly hiring.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

The decision of Commissioner Scott that monthly rent receipts must be stamped, seems to be a harsh ruling, evidently not intended by the framers of the war taxes in Congress.

This decision, of course, applies to receipts given to monthly tenants, and will fall very hardly upon owners of tenement houses in the districts to the west of 9th avenue, and to the east of 3d avenue, and particularly in the lower wards of the city. Many of these monthly receipts are, unquestionably, leases, as the lease terminates within the period named in the rent receipt, and landlords have the right under these receipts to lease to a new tenant at the termination of the date named in such receipts.

Now the question for owners of the many thousands of such tenements, is: In what manner can I comply with the law and at the same time secure the object of a monthly rental, namely the termination of a lease at the end of any given month? I suggest that yearly leases be made with all their tenants, reserving to the owner or the agent the right to terminate the lease at the end of any month during the termination of the lease on giving so many days' notice. This will accomplish the object of the law, and subject the owner to one stamp tax on the lease and one stamp tax on the copy thereof, in all 50 cents, which will comply with the spirit of the law made by Congress. I make the suggestion in your columns for what it is worth.

New York, Aug 3, 1898. LOUIS R. BERG.

Questions and Answers.

COMMISSIONS FROM MECHANICS.

To the Editor of THE RECORD AND GUIDE:

A is a real estate agent and has charge of property for B. B has been told that A is accepting a commission from all mechanics who do work on his property. Can B do anything about this; that is, can he sue A for anything, if he can prove that A did accept such a commission?

Answer.—I am informed that it is common for agents not only to receive but to demand such commissions, but I am of opinion that if the owner ascertains that his agent is receiving such commissions he can compel the agent to account for them.—Law Editor.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

THE optimistic flights in which our people are indulging are natural under the circumstances, though thinking people cannot help wondering whether we are not, with characteristic impetuosity, trying to realize the benefits of our improved contions before giving them time to mature. The papers to-day are full of prophecies of coming prosperity. It is always in order to predict prosperity, sooner or later, for a country so rich in natural resources as this is and possessed by an industrious, frugal people; but even for us prosperity has to be evolved by natural agencies and there may come a period of waiting for this evolution that may make some regret their eagerness of to-day. The position of the United States to-day, is, it must be admitted, one calculated to arouse intense satisfaction. A war which has been carried to a successful end and in which has been displayed the highest military qualities on our part is about to put us into possession of strange lands. While this violates our previously cherished political traditions, it opens markets for our manufacturers which they would otherwise have great difficulty in reaching. We have for several years been marketing our produce abroad with good profit and have been buying little, so that we have large resources within call. Under the sharp lessons conveyed by the financial troubles of 1893 and subsequent years our people at home have been living providently. Capital has increased in volume and there has yet recurred none of that extravagance for which our urban populations at least have been, in other periods, rather too famous. Altogether our position is one sound in principle and full of promise if we do not break away from the wisdom acquired in times of tribulation. A nation victorious in war has, however, to watch itself carefully in order that it does not lose self-control. At such a time it dwells in a rosy light that reflects itself in every direction and generally produces trouble. Germany went through such an experience in the '70s. Let us hope that we may be wise in time and not overdo things. Much of the firmness of our position is due to the fact that for two years running we had abundant crops, while other peoples had very poor ones, and we were able to sell at good prices from our superabundance. This year crop prospects are generally good and we will lose the advantage of being exceptionally favored. We have still a good deal to do before we can reap the commercial rewards of our military prowess and change of political faith; and, for these reasons, and also because it is our nature to indulge in extremes of mood, a word of caution, though by no means one of discouragement, is in order.

WHAT the result of John Bull's anger over his latest rebuff in China will be it is hard to say. Irritating him as the matter does, there are still good reasons why he should not proceed to extremities. The predominance of Russian influence in China cannot be immediately, though it would undoubtedly, if maintained, be ultimately followed by loss of trade, and the British government and people may wish to see what the American move into the Pacific may foreshadow before entering on the big struggle that must come to decide who shall supply China's wants, and much more besides in the far distant East. However, this last blow to Britain's pride is a stinging one, and anticipations of its effects must create anxiety in business circles everywhere. As to purely financial and commercial matters: Loaners of money are beginning to be cautious because the indebtedness of Europe to the United States and that the fall purchases of wheat and cotton have still to be made suggest the probability of a renewal of the westward gold movement. Australasian affairs are greatly on the mend, the first time this may be confidently said since the banking crisis of 1893. Compared with that year gold production has increased, $25,000,000; copper mining has developed to compensate for the loss on silver output, and while the value of the wool clip is not quite as great as it was five years ago the business in frozen meat and dairy products more than compensates the loss in that direction. In the five years there has been considerable extension of the area of land under cultivation and, of course, a larger proportion of the population become dependent upon agriculture. As a result of this improvement it is expected that the accounts of most of the Australasian colonies for the fiscal year recently closed will display excesses of revenue over receipts. Estimates of the Indian jute crop point to an outturn of 90% of a normal crop. The Paris bourse has been cheered by an advance in all the Spanish issues which are so largely dealt in there. Vienna continues to be depressed by the unfortunate internal political conditions in Austria-Hungary. For a third time in a little more than a year the Reichsrath has had to be closed by imperial decree because of deadlocks to business because of racial antipathies. The great question in dispute, is, of course, that of obtaining a fiscal agreement between the two great divisions of the Empire. The Minister of the Board of Trade said recently, referring to the importance of this question: "It is only if we are united for mutual support and help that foreign States regard us as a great Power. Who will, economically speaking, consider Hungary alone without Austrian industry a great Power, and who will consider Austria in the light of one if she lacks Hungary's agricultural production?" Some endeavors have been made to determine Spain's financial position if the war closes, as it seems about to do. It appears that since the insurrection broke out in Cuba in February, 1895, bonds to the amount of $550,000,000 have been issued, and that $80,000,000 are known to be due in the island besides debts, the amounts of which are not known. A debt of $40,000,000 was created to meet the rising in the Philippines, but the debt on that account is no more an accurately determinable quantity than that of the Cuban insurrection. Peace comes to prevent immediate bankruptcy of the Spanish treasury, but it is not altogether certain that the compromises that have already been made with some of its bondholders will afford it sufficient relief.

ONE of the four canons of taxation laid down by Adam Smith is that "the tax which each individual is bound to pay ought to be certain and not arbitrary." To prevent arbitrariness in the quantity of the tax on real estate the law provides that real property shall be assessed at its selling value. It is a well-known fact that, in practice, the assessed and the market value of real estate rarely correspond, and that the ratio which the one bears to the other commonly differs in the several administrative tax units into which the State is divided. But so long as the ratio between the assessed and the market value remains the same for all real property within each individual unit the element of certainty is not materially disturbed. Every man is able to calculate with sufficient accuracy what the fixed charges on a given piece of land will be, and to regulate his investments accordingly. There is a socialistic element, however, which maintains that taxation ought to be employed, not merely as a measure of revenue, but also as a means of correcting inequalities in wealth. This is precisely what was attempted in the town of Mount Pleasant, where the assessors have undertaken, in the words of one of the board, to "take the taxes off the poor and put them on the rich." In the review before Referee W. E. Hoysradt of the tax valuation for 1897 on John D. Rockefeller's property, it appears that this parcel, comprising 981 acres, was assessed at $687,000, whereas real estate experts testify that its actual selling value is only $385,000. It is hardly more than a generation since the banks of the Hudson were under cultivation as farm land. The market price of this land has now reached a point where to cultivate it would not pay interest on the capital invested. The farmers behind the Hudson River slope, who comprise the bulk of the permanent population and who occupy less costly land, are having an increasingly hard time to make both ends meet,simply because their farms are becoming too high-priced for profitable cultivation. It is evident, therefore, that the proper policy to pursue for the townships along the Hudson, say from New York City to Peekskill, is to encourage the development which is rapidly transforming these settlements from agricultural communities to suburbs of New York City. But no man, not even a multi-millionaire like John D. Rockefeller, is willing to establish his summer residence in a place where he will have to resort to the courts at frequent intervals for the revision of illegal, excessive tax valuations. Such litigation constitutes an uncertain and arbitrary tax, which not only discourages investment in real estate, but ferments class hatred, and drives wealthy residents to seek refuge in more congenial surroundings.

IT is more than likely that the Board of Public Improvements will, at its meeting on Wednesday next, approve the tentative street map for the territory east of the Bronx River, recently

completed by the Topographical Bureau. If from any cause not now in view approval is delayed, it will be for so short a time as to be inconsiderable, because the Board, individually, have already expressed satisfaction with the map, and collectively and officially are only waiting until the interested public are also convinced of its merits to give formal expression to their views. So far those who have examined the map have all praised and accepted Mr. Louis Risse's excellent scheme for the laying out of streets in the territory affected, a description of which was given in our issue of December 25th last. What objection has been raised to its adoption has been by those who have not had an opportunity of examining the map with care and who have asked for time to do so. This has been given them, and it is expected that they will have made up their minds by Wednesday next and will appear at the adjourned public hearing ready to add their support to that of those who have already asked that the map be accepted by the municipal authorities. In the prospect of this consummation the owners of real property east of the Bronx are to be heartily congratulated. It is needless to enlarge upon the importance of an official street map for a district undergoing improvement. Everyone locally informed knows what an obstacle to development the want of such a map was in the territory annexed in 1873. It is only comparatively recently that this want was supplied. The delay not only retarded development; but, by reason of much of the building being done without guide as to street lines, the city is also paying out large sums annually for buildings, which it has to remove when opening streets. As was pointed out by Mr. James L. Wells to the Board of Public Improvements recently, the cost of a street map would have been repaid over and over again had one been prepared when the territory above the Harlem was first annexed, simply from the fact that it would have shown people where to build and their buildings would not afterwards have had to be torn down in opening streets. The prompt adoption of a street map for the new territory is, therefore, to be urged on the grounds of private necessity and public economy. That it should come in three years after annexation, as compared with about twenty years after for the rest of the 23d and 24th Wards, is evidence of the increase of public spirit and activity across the Harlem, which demanded prompt attention to the matter, and of the capacity of the officials who had the work in charge.

CORRESPONDENCE.

WHAT IS REQUIRED OF A NEW BUILDING LAW.

To the Editor of THE RECORD AND GUIDE:

No question now before the people of New York City is of greater importance, and only one, that of proper transit, is of equal importance with that of a proper building law, since on it depends the health and safety of the present city, the character of the future city, present and future property values, and the livelihood of a very large number of families.

The new city charter provides for the appointment of a Commission of Revision by the Municipal Assembly. One chamber of the Municipal Assembly has decided to have this committee appointed by its President and composed of members selected from the various building and real estate interests, which committee will, it is reasonable to presume, be in due course appointed. It is pertinent at this time to briefly review some of the past and to suggest wherein improvement may be made in the future.

Nothing can be well done that is not well considered, and that is not based on sound fundamental principles. The fundamental principle giving excuse for a building law is derived from the exercise of the police power of the State operating to protect the citizens of a State at large from the injuries consequent from the acts of individuals, and the broad general purpose of any building law may be, therefore, stated to be the protection of the health and property of the public at large, so restricting the height of buildings that each member of the community will receive a proper amount of light and air from the public streets; shall be afforded a proper amount of light and air in a properly designed building so constructed as to be free from danger of fire to a considerable extent and free from the more insidious, though no less real danger from defective sanitation. The general principle on which all such laws have heretofore been framed has been that of fixing broad general restrictions, leaving to the municipality directly interested the details of the application of these principles according to the local needs and judgments. In so far as this principle has been followed our laws are admirable, where it has been departed from they are models of stupid incompetency.

Laws applying to the Borough of Manhattan are different for exactly the same class of buildings from those in force in the Borough of Brooklyn, while in the outlying boroughs practically no law may be said to exist. In certain particulars the law of Manhattan is explicit and in certain other particulars leaves all kinds of things to the discretion of a commissioner. Pages for example are given to all kinds of structural details and but a few lines to the vitally important subject of foundations. The whole subject of plumbing is comprised in regulations promulgated by the building department; as a consequence, while a difference of opinion may exist concerning the details of these regulations, no question can be raised, but that they are in principle thoroughly good, and are constantly kept up to date. Again, the specific provisions of the law have been so carelessly drawn and so hastily enacted that as it stands it is full of inconsistencies, absurdities, incongruities and defects, and a source of expense, irritation and delay to almost every good architect. The law as it exists is of value only in showing what to avoid.

On general principles, it would be at once admitted by any thoughtful person that where there are such a multiplicity of interests involved, so many active minds engaged in the perfection of new material and appliances and the modification of old ones, so many new problems arising through irregularity in the shape of lots and so many minds endeavoring to solve the problems created by the different uses to which buildings are to be put, which uses vary constantly, that it would be impossible to frame a law, which in its specific details could stand without modification, without producing great hardship and in many respects defeating the fundamental purposes of the law. It would then seem as though the character of the new law should be general wherever possible, instead of specific, and should be along the following lines: First, specific provisions limiting the height of buildings in accordance with their use and location. Second, general provisions relating to the construction of buildings with reference to their height, use and location. Third, the sanitation of all buildings, including therein general provisions concerning plumbing, light, ventilation, etc. Fourth, matters of fire protection. Fifth, provision made for the enforcement of the law (a) by the provision of a proper examining and clerical force; (b) by a provision made for a law department for enforcing the rules of the department before the courts when necessary, and the fixing of penalties for violations. Sec. 1. The restrictions determining the height of buildings should be made only after a careful study of the entire situation and should take cognizance of the architectural need of the entire city for a reasonable degree of uniformity in the skyline, of the varying width of streets, of the probable density of population in the varying centers, of the probable future conversion of any neighborhood from one use to a different one. The limits of height once fixed should be preserved for a considerable period to avoid injustice to adjoining property owners, who, erecting their buildings within a year of each other and paying probably the same price per square foot for their land would be permitted to erect buildings of greatly differing heights. Sec. 2. The specific provisions in a building law as to construction should be strictly limited to the authorization of the Commissioner of Buildings and his subordinates to prepare regulations for the erection of the buildings of various types, granting authority to the building department to take cognizance of all changes in the building and requiring compliance with the law in all respects wherever alterations are made in a building in a period of twelve months, the cost of which will equal or exceed 10% of the value of the building. The definition of the areas within which all buildings must be fireproof, within which all buildings must have the exterior walls of fireproof material or within which buildings may be made of frame, and the limitation of permissible height of each of the above-mentioned classes of buildings and the requirement of fireproof construction for all buildings of certain classes and above certain heights. Sec. 3. The sanitary provisions should be simply those requiring the registration of plumbers, and granting authority to the department of buildings to make regulations governing sanitary matters. Sec. 4. The general provisions for fire protection should provide for the making of regulations by the department, controlling the installation of all heating and lighting apparatus, and for governing egress from all public places, fire-escapes and the like. Sec. 5. The personnel of the department should be provided for on the basis of an expert Board of Appeal and Advice, composed of three members, one from the Am. Inst. of Architects, one from the American Society of Civil Engineers and one from the Am. Inst. of Electrical Engineers, appointed by the Commissioner. A Commissioner of Buildings having general supervision over the entire department; deputy commissioners, with branch offices at various points in the municipality where needed. Superintendents for each class of construction, for plumbing, ventilation, heating, lighting and fire-escapes; examiners to apply the rules of the department to the plans submitted, who would refer matters of difference to the superintendent of their respective divisions, and clerical forces to advise owners or their agents of the action taken on plans submitted. Inspectors of two grades, one for daily supervision and the other for the examination of special features, which duty might be performed by the division superintendents, a legal department of such size as the requirements of the case demand, and the usual forces of messengers, doorkeepers, etc.

The regulations of the department would be framed by the joint action of the various Superintendents, the Commissioner of Buildings and the Expert Commission. The regulations would be subject to modification in matters relating exclusively to the various divisions by the division superintendents. The general regulations would be subject to modifications by the Board of Superintendents, from whom a final appeal could be taken to the Commissioner and the Expert Commission. All modifications of regulations by the division superintendents should, of course, be made subject to the approval of the Commissioner and all communications between the applicant and the Board of Superintendents or the Commissioner and his expert advisers should be in writing, with the privilege of amending a brief to meet specific objections. A further very important point which is intimately

related to the building law, although probably requiring a modification of the criminal code, is a provision making the architects criminally liable for injury to life or limb occurring through the failure of any building or part thereof, unless they can show affirmatively that the cause of the accident was the disobedience of orders or the non-compliance with plans and specifications on the part of the contractor in such a way that the architects could not prevent it, and a further provision making the owner of any premises in which fire originates responsible for all the damage caused by the said fire.

With a department so organized the regulations would keep pace with every improvement, the examination and modification of plans would proceed with great rapidity and the building interests of the city advanced in every way, while the community would be properly guarded from the consequences of ignorance and cupidity.

The Real Estate Market

Real Estate Market.

The business of the private sales' market this week has been small and without special feature. Below will be found reports of 27 transactions, with the consideration given in 7 of them and amounting to $276,000. Corresponding figures for last week were 28, 9 and $346,500, respectively. This comparison shows the humdrum condition of affairs in the realty market, and renders further comment unnecessary.

The following are the comparative tables for the New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897:

The meagre auction business of the week was enlivened a little by a contest for some Grand street parcels, sold by Peter F. Meyer, in partition. These formed the corner of Grand and Willett streets, a plot 50x100, with old buildings. The plot was divided for the purposes of sale into two parcels, 25x100 each, each carrying with it the parts of the buildings standing on it. The corner brought $37,250, and the inside lot $21,000, the buyers being two firms of real estate dealers who favor the Hebrew tenement section. Some remark was occasioned by the buyers of the corner letting the inside lot go for what appeared to be a low price compared with their own purchase, but the supposition is that the two firms in question made their purchases with an understanding with one another. Considering that it was really lots that were sold, the results show that there is no break in the demand for realty in this section for tenement uses, to which attention has been called from time to time in these columns of late years. Nos. 155 and 157 Wooster street, announced to be sold in foreclosure, were withdrawn, and the sale of the Hotel Grenoble was adjourned until the 22d inst.

REAL ESTATE NOTES

Broker John H. Oeters has just returned from a six weeks' sojourn in the Catskills.

Broker N. Brigham Hall has gone to Lake Sunapee, New Hampshire, for a few weeks. He will return about the 25th inst.

W. H. Folsom, of Folsom Brothers, is spending his vacation in the Adirondack Mountains; he will be away about six weeks.

Lowenfeld & Prager are reported to have purchased a lot on Clinton street, between Madison and Henry streets, for $20,500.

Simon Myers left town this week for a ten days' vacation. On his return he will open an office on 3d avenue for the transaction of a general real estate business.

Michael L. Fane is the buyer of the southwest corner 8th avenue and 36th street, the sale of which was reported in our issue of July 30. The price was $90,000. The buyer will improve.

A. P. Kirkland & Co. are reported to have sold a plot at the southwest corner of Jerome avenue and 184th street; four lots on Grand avenue, and two lots on Davidson avenue, north of 184th street.

A quarterly dividend of 1½% has been declared by the Board of Directors of the Bond and Mortgage Guarantee Co., whose office is at No. 175 Remsen street, Brooklyn. Particulars as to time of payment, etc., will be found in our advertising pages.

It is announced that as soon as the 6th and 8th avenue roads are in operation, the Broadway and Columbus avenue lines will be changed from cable to underground trolley, the object being to enable the cars to be massed at a given point at certain hours.

The Supreme Court, Appellate Division, in an opinion by Justice Barrett, has reversed a Special Term order granting additional compensation to the amount of $22,500 to the commission appointed to assess the value of land taken for opening Edgecombe road. These Commissioners were Edward F. O'Dwyer, Isaac Fromme and Benjamin Perkins.

A further hearing will be given by the Board of Public Improvements on the proposed map of the territory east of the Bronx River, on Wednesday next, at 2 p. m., when it is expected that it will be approved by the Board. So far very little objection has been made to the lay out.

Collins & Collins, the reported buyers of No. 603 5th avenue, will neither confirm nor deny the purchase, but state that they may have something to say next week. They also state that the price reported, $110,000, is ridiculous, $120,000 having been offered and refused.

W. J. Van Pelt, who has been with Geo. R. Read for 15 years, was admitted to partnership in the firm on the first of this month. He has had an interest in the business for several years past, and his admission to partnership is a natural step cementing a desirable business association. No change will be made in the firm name, which will be Geo. R. Read, as before.

Use of the new Manhattan Elevated terminus, between 2d and 3d avenues, will begin to-morrow, Sunday. The passengers of the Second Avenue line will also be accommodated at the new station platform with the opening of business on Monday morning. The platform will also serve for the present as a terminus for the trains of the Suburban line, as well as for the New York, New Haven & Hartford Company's branch to New Rochelle. It is, however, the ultimate plan of the Manhattan Railway authorities to run through trains on the Suburban line, from 177th street to the City Hall.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

Broker Wm. Lipkin has opened a new and commodious office at No. 748 East 138th street, near Brook avenue, which promises to be a headquarters for builders and owners in that vicinity. Mr. Lipkin is a hustling and experienced worker, making the sale, exchange and rental of realty his specialties. His branch office is at No. 35 Manhattan avenue, near 102d street. Telephone, 839 Columbus.

COPIES WANTED.

We will pay a liberal price for copies Nos. 930 and 1526 of the Record and Guide, delivered at our office in good condition.

Building Material Market.

Brick.—Arrivals of Hudson River brick have amounted to 55 barges. Fifty-four have gone out. The quality of the brick is exceptionally good. Prices are $5.25@5.75, with some that are a trifle off selling at $5.00 Pale are in very good demand at $3.75, with a few bringing $4.00. The strike is still on at Haverstraw. Lime.—Several barges of Rockland lime have been in and have sold at former prices. State and Jointa limes are unchanged. Cement. —The supply of cements of all makes is so low that they are at premiums. Inquiry is strong and the market is in a remarkably good condition. Lath.—Inquiry is gradually increasing, while the offerings are falling off. Arrivals of Eastern spruce lath amount to practically nothing and no prices are being made for supplies to arrive. Nails.—The price of wire nails has been advanced 5c. A meeting of the manufacturers is to be held the latter part of the week to discuss the advisability of making a corresponding advance in cut nails. Inquiry for wire nails is increasing. The cut nail market is sluggish. Oils.—A reduction in the price of linseed oil has been made by the city crushers to meet the out-of-town crushers. Quotations are 33c. for 5-bbl. lots and over, and 34c. for less than 5-bbl. lots. Seed is down and although inquiry is on the increase, the margin between the city and other crushers was so great that it was necessary to cut it down. The original reduction was based on the anticipation of a further decline in the price of seed. Naval Stores.—Spirits of turpentine advanced a shade to 28¼c. for regulars, and 28¾c. for machines, small lots bringing ¼c. more. The inquiry has been light. Tar is unchanged. Glass.—In the glass market, the outlook is very promising for a good fall trade. Prices are firm and there is nothing in the near future to warrant any change. This applies to both plate and window glass.

OF INTEREST TO THE BUILDING TRADES.

George Palmer Graves, architect, has removed from No. 156 5th avenue to No. 37 West 22d street, New York City.

Horace H. Esselstyn, formerly with Wm. J. Fryer, has opened an office in Room F, on the 21st floor of the St. Paul Building, Broadway and Ann street, where he will carry on business as an architect.

Joseph L. Steinam, of Pollard & Steinam, No. 19 Union square, who has been summering at Far Rockaway, returned to the city yesterday.

The annual outing and clam bake of the Association of Master Plumbers will take place Thursday, Sept. 8. Those desiring to attend should communicate with T. J. Cummins, No. 1035 3d avenue. The price of the ticket is $5.

Charles McCauley, for 30 years a foreman in the employ of Contractor John D. Crimmins, died suddenly, apparently of apoplexy, in his room at Peter Hofsess' Hotel, No. 700 3d avenue, on Wednesday. Mr. McCauley was 64 years old.

The largest lead-lined tank in the world is the oval employed for the naval exhibition at Madison Square Garden. It is 228x116x4, contains 68¾ tons of 4-lb. sheet lead, 4 tons of solder, and was put up by J. W. Cooney, No. 384 Amsterdam avenue, in, we believe, five days and a half.

The following gentlemen have recently been admitted to membership in the Association of Master Plumbers: J. F. Kelly, of Johnston & Kelly, No. 374 Columbus avenue and 156 5th avenue; A. A. Rhodes, of Thain & Rhodes, No. 358 Columbus avenue; D. J. Deady, No. 105 West 97th street, and James F. Hogan, successor to Paul G. Decker, No. 3204 3d avenue.

The school-house committee of the Newark Board of Education Wednesday night appropriated $95,000 for school work, including the Bruce street school, and the following additional improvements: Additions and repairs to the South Market street school, $35,000; for a new school in the 15th Ward, $25,000; the completion of the 15th avenue school, $5,000; for the Charlton street school, $8,000.

The Washington Heights Free Library, Amsterdam avenue and 156th street, of which Edmund S. Whitman, No. 302 Produce Exchange, is President, and Geo. B. Curtiss, No. 96 Chambers street, Secretary, contemplates erecting a new building. Some definite action will probably be taken at the next meeting of the board, on the first Tuesday in October. No site has been selected, although several have been considered.

If the Association of Master Plumbers finds it difficult to get its members together at the Association's rooms in East 58th street, these hot summer nights, the officers might convene the regular semi-monthly meetings on the South Shore train of the Long Island Railroad. Probably a quorum could be procured any morning on the train which arrives in New York at 7:55 a. m. Among members who are summering on Long Island and who patronize the South Shore train are John Mitchell, John Byrns, T. F. Gaynor, B. F. Donohue, I. O. Schumway, E. J. Brady, and Philip Brady.

The demolition of the old building, Nos. 56 and 58 Oliver street, at the northwest corner of Oak, was begun this week despite the protest of excited tenants, mostly Greeks and Polish Jews, who refused to leave, although the structure had been condemned by the Building Department. The property was purchased in March by the builder, Louis Perelstein, and will be improved by the erection of a 6-story store and flat house from plans by Horenburger & Straub. The Barracks, as the tenement was popularly called, was the oldest as well as, at one time, the most notorious house in Cherry Hill. Originally built by a member of the Bayard family, it went through the several well-known conditions of degeneration which have befallen so many proud mansions in once fashionable districts in the old City of New York. In the picturesque period when the Cherry Hill gang waged a stout, though unequal, conflict with the police, the Barracks was a favorite resort for thieves and disorderly characters. On the disappearance of the gang, however, the place lost its prominence in police annals, and for some years the Barracks has occupied the humble role of a frightful example in current literature on tenement house reform.

The following is a comparative statement of the receipts of the Department of Water Supply for Croton water for building purposes for the months named:

	1896.	1897.	1898.

Totals	$36,833.97	$46,833.54	.....

Rate, 10c. per 1,000 bricks.

These figures include stone work, which is figured as brick and lumped with brick; and frame houses in 23d and 24th Wards. The Department records, therefore, do not show exact number of bricks paid for, nor do the records show the following items:

Buildings in which water is used through meter. These are paid by meter measurement in Meter Department as charges for general consumption.

Buildings in which no Croton is used; well or spring water only being used; no charge.

Alterations and extensions, using less than 10,000 brick; not charged.

A GREAT CHURCH LIGHT.

Frink's Reflectors are too well and favorably known to need any special recommendation, but it will be of interest to those in search of lighting apparatus for a church or any other place to note what one prominent pastor thinks of them. This is the Rev. G. R. Robbins, pastor of the Lincoln Park Institutional Baptist Church, Cincinnati, O., who has written to Mr. Frink, saying:

"You will remember furnishing the reflector for the new edifice which I led in building at Hoosick Falls, N. Y. It gave such excellent satisfaction that it afforded me much pleasure to recommend same to many churches, and you have made a number of sales through my recommendations. I want to say that the two large reflectors you furnished for our Temple in this city have given universal satisfaction, and everybody is delighted. Without the use of a single sidelight, which is always a nuisance, our very large auditorium, or rather two auditoriums (for we use the entire Sunday-School rooms and main auditorium on Sunday nights), is brilliantly lighted. No grumbling because the old people can't see the words of the hymns. There is not a church in this city, with its 250 churches, so handsomely lighted as ours."

Some of Frink's Special Window Reflectors, of one of which a cut appears on another page, have recently been introduced at the large store of Abraham & Strauss, Brooklyn, where they give entire satisfaction.

ELECTRICAL WORK.

William G. Cochrane, electrical engineer and contractor, is centrally and conveniently located at No. 45 West 125th street. He makes a specialty of general electrical work, including the installation and maintenance of electric light and power plants. His late connection with the General Electric Co., of Schenectady, N. Y., gave him an experience that is extremely valuable, and which is appreciated by the growing list of owners, builders and architects who employ him. Recently completed work includes three private houses on 182d street, near Amsterdam avenue. Among other customers are Nauss Bros., Kahn's Columbus Theatre, and the Edison General Electric Co. Mr. Cochrane's telephone call is 945 Harlem.

Notice to Property Owners.

WAR TAX QUERIES.

The only question bearing on real estate that continues to agitate the public and the Collectors of Internal Revenue, is that relating to the forms of rent receipts that are or are not taxable. There is no change of position on the part of the Treasury Department on this matter, but their views have this week been illustrated by certain forms of receipts presented for opinion, one of which is declared to be taxable and one not. The first was submitted by Adolph Bloch, of No. 99 Nassau street, and was as follows:

New York, Aug. 1, 1898.

Mr. John Doe (tenant):

To Richard Roe (owner), Dr.

To rent of flat, &c.....(description).....as leased for August, 1898.

Received payment, Aug. ...., 1898.
Signed .....

Collector Treat received a response from Commissioner Scott saying: "You will please inform Mr. Bloch that this office holds that this receipt is taxable as 'a memorandum for the hire, use, or rent of lands, a tenement, or a portion thereof.' The tax imposed is 25 cents. There seem to be many inquiries relating to different forms of rent receipts in your city. This office holds that where a receipt is given for money received as rent, and there are no other recitals in the receipt, it does not require a stamp. If the receipt contains any phrase or clause that can be construed as a contract for the hire, use or rent, as aforesaid, then in such cases the receipt becomes something more than a bare receipt, and should be stamped according to its tenor or effect."

Collector Eidman submitted to Commissioner Scott three forms of rent receipts, and asked for a ruling on each one. The Commissioner replied, under date of Aug. 9, that a receipt drawn as follows is not taxable:

New York, ..., 189..

Received from ..... dollars for ..... months' rent, in advance, for ....., No. ..... Street, due 1st inst.

.....

A number of queries reached us too late for study and answer in this week's issue. At the same time occasion is taken to say that the Record and Guide does not undertake to answer queries unless the names and addresses of the questioners accompany them. This will explain why some of our correspondents have not found their communications acknowledged in these columns:

To the Editor of THE RECORD AND GUIDE:

The New York "Herald" of this date (August 3d) prints a decision of Commissioner Scott to the effect that rent receipts for monthly tenants require a (25-cent) revenue stamp. Will you kindly let me know through the Record and Guide if this is correct? (2) Also, can an owner be compelled by law to give a receipt for rent? (3) In case a tenant refuses to pay his rent unless he gets a receipt for it can the owner dispossess the tenant for non-payment of rent?

Answer.—(1) Where the receipt expresses the terms of hiring and can be construed to be a "memorandum" of the contract a stamp is required. (2) No. (3) Yes.—Law Editor.

Questions and Answers.

REAL ESTATE HELD IN FICTITIOUS NAME.

To the Editor of THE RECORD AND GUIDE:

A claims that it is a common practice to hold real estate in fictitious names. For instance: R—— B—— purchases certain real estate. He has a title vested in John Doe, R—— B—— being either a judgment debtor or in a position where judgments are likely to be obtained against him. He mortgages or conveys this real estate by signing the name of John Doe and getting some friend to introduce him to a notary as John Doe. Or this notary and friend may be one and the same person, who, knowing R—— B——'s circumstances, accommodatingly takes his acknowledgment to the execution of mortgage or deed as John Doe, etc. B claims such a practice is not common; that it would be criminal to introduce a man under an assumed name, and by that name, for the purpose of getting a notary to take his acknowledgment to a deed or mortgage, and that a notary would be no less criminal who took such an acknowledgment and who knew the facts of the case at the time. Will you kindly state in your paper who is right; also what the practice amounts to and the liabilities incurred by notary and principal?

Answer.—I have been in active practice for more than thirty years, and have yet to hear of real estate being held in a fictitious name, for the purpose of evading claims of creditors or for any other purpose. It is a common practice for a debtor to hold real estate in the name of another, for instance, his wife or one of his children. I do not find that the acts spoken of in the query are expressly forbidden by the penal code, but I think that perhaps they might be punished under Sec. 675.—Law Editor.

NO CLOUD UPON TITLE.

To the Editor of THE RECORD AND GUIDE:

Some time ago I bought a piece of property subject to a mortgage, which mortgage I paid when due, and a satisfaction was issued and placed on record cancelling said mortgage. Some months thereafter I received a notice from an attorney notifying me that the assignee of said mortgage had not received any interest, and same being due. Looking up the record I find that said mortgage was assigned previous to date of satisfaction piece being issued and recorded, but assignment placed on record after satisfaction piece, I having the bond and mortgage in my possession. What I would like to know, is there a cloud upon the title, therefore, the assignment being still on record? What does the recording act say in reference to same?

Answer.—There is no cloud upon your title. The mortgage is discharged of record and that is the end of it.—Law Editor.

FENCING OF VACANT LOTS.

To the Editor of THE RECORD AND GUIDE:

Can you inform us if it is compulsory for owners of vacant lots in New York City to fence in their lots, and if such is the case, which City Department attends to this?

Answer.—It is not compulsory unless proceedings are taken to compel the owner to fence the lots. For the purposes of local improvements, the territory of the city is divided into twenty-two districts of local improvements, which are coterminous with the Senatorial districts. In each district there is a "local board" of improvements. The local board has the power to cause the flagging or reflagging of sidewalks, fencing vacant lots, digging down lots or filling in sunken lots within its district, by resolution approved by the board of public improvements. "When such public work or improvement shall have been duly authorized, the board of public improvements shall direct the proper department to proceed forthwith in the execution thereof, as in cases where public works are proposed and initiated by said board of public improvements." Sections 390 to 403 of the Charter.—Law Editor.

NO MECHANIC'S LIEN ON UNITED STATES PROPERTY.

To the Editor of THE RECORD AND GUIDE:

Kindly answer the following question in your next copy: I have done some work in the new Custom House, a United States building, for a sub-contractor, Mr. C., and Mr. H. is the first contractor, who is under bonds. As the work was finished all but about two weeks more, Mr. H. has taken the work away from C., saying he did not pay his other contractors enough out of about $1,900 which C. has received, which amounts to about 35 per cent. of the whole amount. I finished my work, which amounted to about $12 more. The whole job amounts to $262. I received $50 on account while I worked there. Mr. C. had several other contractors to work. Some of them got their money by selling their clam to Mr. H. I, being the last on the job, varnishing partition; now Mr. H. says he does not know me, nor hired me, and Mr. C. has no means to pay me, as he cannot get any more money from H. although C says he has a claim of $2,000 balance. Now, can I put a lien on the building, or how must I proceed to get my claim?

Answer.—No valid mechanic's lien can be filed against a United States building. Your only remedy is to sue C, who employed you.—Law Editor.

COMMISSION ON EXCHANGE.

To the Editor of THE RECORD AND GUIDE:

I was the cause of bringing two persons together who made an exchange of property worth $41,000. Am I entitled to commission? A advertised a fine flat to exchange. I received a postal from A to call. I have done so and examined A's flat. A called to see my house. It did not suit. I requested A to see houses next to mine. A did so and made the exchange with B. I received order from B to sell or exchange his property, and he would pay me regular commission. Kindly give this your attention and oblige, as I do not wish to spend good money for bad. I mean to bring a law suit.

Answer.—You are entitled to a commission from B.—Law Editor.

EXCAVATION.

To the Editor of THE RECORD AND GUIDE:

Will you kindly reply to the following question? A party excavating on Manhattan Island, to build ten feet below the curb line, finds the adjoining building is down but five feet or less. On which owner rests the responsibility and cost of securing and making substantial the foundation of said adjoining building; also please state what the legal obligations have been for the past 25 years, and if any changes were made within that time, at what dates?

Answer.—The law as it is now has been substantially the same for twenty-five years. The amendments have been Sec. 3, Chap. 456, Laws of 1885; Sec. 2, Chap. 566, Laws of 1887, and Sec. 9, Chap. 275, Laws of 1892. If the builder desires to excavate more than ten feet he must, at his own cost, protect the adjoining property if license is given to him to go upon the adjoining property for this purpose. If he desires to excavate ten feet or less, the adjoining owner must protect his own property.—Law Editor.

PLUMBERS CHARGES.

To the Editor of THE RECORD AND GUIDE:

Sir.—I objected to $9 in a bill of $60. I was charged 70 cents an hour for one man's time. I received the following answer to my objection:

"Dear Sir: Your letter, with bill enclosed, received, and, in reply, would state that we cannot make the deductions you suggest. As you know, a plumber will not work without a helper; it was simply in consideration for you that we probably did not allow the helper to go to a small job, to avoid the nuisance to you of having so many men about the house.

"At the same time the boy was waiting in the store for the plumber's return, and his wages going on just the same, so I think after this explanation you will see the justice of charges of enclosed bill.

"Very respectfully yours, ———— ————."

Is it possible that the statement in this letter is true, and that I am obliged to pay such a charge? Yours respectfully,

TRIBUTE-PAYER.

Answer.—There is nothing in the agreement between employing and journeymen plumbers that requires that a journeyman shall have a helper, but it is the custom of the trade and has the force of a law, though unwritten. In such circumstances as those mentioned in the letter quoted it is customary to charge for the helper. —Editor Record and Guide.

SALARY UNPAID.

To the Editor of THE RECORD AND GUIDE:

I am in the employ of a corporation which owes me one month's salary. Have made a demand for same, and refuse to pay me on the grounds being financially embarrased. How can I collect the amount due me without being put to any great expense of hiring counsel, etc.?

Answer.—If they refuse to pay upon demand your only course is to employ a lawyer and commence a suit.—Law Editor.

EXECUTORS DISAGREE.

To the Editor of THE RECORD AND GUIDE:

When two executors of the estate of a deceased person differ in regard to the value of, and the best time to sell, a house and lot which is part of the estate, and neither is inclined to change his opinion, what is the usual or best way to reach a decision in such a case? (2) The will provides that one executor shall receive a legacy with no mention of any other remuneration for him, and that the other shall receive full and regular commission, the same as it would be if he was the only executor, and administered the estate alone. Under these conditions, can the executor receiving the legacy claim commission also? How much commission does the other executor receive from the real estate? How much does he receive from the other property?

Aswer.—There is no way. If the executors do not concur, there can be no sale. (2) If there is no provision in the will that the legacy shall be in lieu of commission the executor can claim his commission. (3) Executor's fees are 5 per cent on the first one thousand dollars; 2½ per cent on the next ten thousand, and 1 per cent on the remainder of the estate. If there is more than one executor the fees are to be apportioned among them according to the services rendered by them, respectively. If the value of the personal property of the decedent amounts to one hundred thousand dollars, or more, over all his debts, each executor or administrator is entitled to the full compensation on principal and income allowed to a sole executor or administrator, unless there are more than three, in which case the compensation to which three would be entitled must be apportioned among them, according to the services rendered by them, respectively. If, under the power of sale in a will, real estate is sold the proceeds are considered personal property and the executors are entitled to their commissions out of these proceeds. If the real estate is not sold, under the power of sale, the executors get no commission on the real estate.—Law Editor.

FENCE.

To the Editor of THE RECORD AND GUIDE:

Kindly answer the following question: A is the owner of a house and lot. B is the owner of a house and lot which he is building at the present time. B wishes to build a wooden fence around his entire lot. If B sets his fence posts on his own line, keeping the pickets inside his own line, can A nail his pickets on B's fence posts? (2) Also, if A's fence pickets (not the posts) are on B's line, has B the right to take the entire fence down? Kindly state the law on this subject.

Answer.—(1) He has no right to do so. (2) No.—Law Editor.

APPORTIONMENT OF RENT.

To the Editor of THE RECORD AND GUIDE:

Please answer through your query column the following: A gives B her lifetime interest in a farm. B rents the farm in January for one year, the rent all to be paid in October. A dies in May. Can B collect the rent for the year, or any portion of it?

Answer.—Prior to 1875 B could collect no portion of it, but since the passage of Chap. 542 of the Laws of 1875, rent can be apportioned. As the law now stands I think B is entitled to an apportionment of the rent, so that he will have the rent from the date of the lease in January to the day of the death of A—that is, about one-third of it.—Law Editor.

COMMISSION ON EXCHANGE.

To the Editor of THE RECORD AND GUIDE:

Will you please answer the following: A calls upon B, who is a broker, and offers property for exchange. B calls upon C and offers A's property in exchange for property of C. C examines A's property and accepts same and agrees to exchange. A examines C's property and agrees to exchange. A and C never meet; all dealings are conducted between them by B. Both A and C agree to execute contract, satisfactory terms having been made. Subsequent to all this A refuses to sign contract, stating that he has sold the property to another party. Is B entitled to brokerage?

Answer.—Yes.—Law Editor.

ENCROACHMENT.

To the Editor of THE RECORD AND GUIDE:

I have been considering the purchase of a five-story flat house, but find it encroaches on another party's vacant lots about one and one-half inches. In case I should take it as it is, what damages could be collected at any time in the future, the present owner of the lots not being aware of the encroachment, or should I make the present owner of flat house settle the matter before purchase?

Answer.—Make the owner from whom you propose buying settle the matter before you take your deed.—Law Editor.

FREE AND CLEAR DEED.

To the Editor of THE RECORD AND GUIDE:

I have made a contract for the purchase of a house and lot under which a free and clear deed is to be delivered to me. The seller's attorney has tendered me a deed containing the following clause, "subject to a consent given some time before to the elevated railroad." Could I successfully object to taking title? His attorney, who is very much learned in the law, especially in realty matters, says I cannot, as it is only an easement, and not an incumbrance upon the property. An early answer will greatly oblige me.

Answer.—I think you can refuse to take the title; an easement is certainly an incumbrance.—Law Editor.

CONSTRUCTION OF WILL.

To the Editor of THE RECORD AND GUIDE:

Will you kindly reply to the following questions: The death of an aunt; unimproved property in New York City is left to nephews and niece, with instructions to sell the same; one cousin with a lawyer in the city are named executors. (1) How long before the final settlement must be made? A sum was named to be set aside to bury one cousin, but not specified how it was to be taken care of. If he should die, there is no means available to apply to the bequest. (2) How must the bequest be cared for on settlement? The wife and child of one cousin was left by will a piece of improved property. At time of death the property did not exist, as she had sold it two years before, but made no mention in will of it, or how the parties were to be taken care of. (3.) Will they be shut out from any part in the estate?

Answer.—(1) An executor or administrator can be compelled to account after the expiration of a year from the time his letters are granted to him. (2) If there are no means available to apply to the bequest it will not be cared for. (3) Yes, unless the testatrix made some other provision for them.—Law Editor.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

JUDGMENTS.

In these lists of Judgments the name is alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXII. AUGUST 20, 1898. 1,588

THE stock market has this week made a new record for one day's business. Up to this time 850,000 shares were the most that were reported in any one day, but now the record stands at about 900,000. This means an immense volume of business passing through the hands of stockbrokers, because at no time does every transaction get on the tape, and the omissions are probably proportionately greater as the volume of business increases. A record has also been made in bond selling recently, so that in all lines there has been a sort of buying outburst as a consequence of good feeling engendered by the prompt conclusion of the war. While the figures showing the amount of business done are evidence of a return of public confidence to corporate securities, and a readiness to indulge in speculation in them, they also bring to light the fact that the shrewder portions of the community who bought when prices were lower in the expectation that just such conditions as have arisen would arise to give them profits, have realized, leaving the market to the newly awakened public for the time being. This makes it probable that a little time must be allowed for digestion by the new buyers, and not improbable; in fact, quite likely that a reaction will follow in the next succeeding few days. The circumstances that make positive predictions on this point dangerous are the cheapness of money and the bullish tone of the press generally. The latter is not only displayed towards Wall street, but towards every conceivable industry and method of carrying on business in the country, with prospective operations in the Antilles and Philippines thrown in to make the picture of coming wealth more fascinating. While the cautious think prices for the most active stocks have passed the safety limit, the public, which never looks into details, is so carried away by the talk of booming business and commercial expansion that they may put quotations much higher, as they have done in other years, with rueful consequences, but which no amount of warning could prevent. Except in singular instances where special developments warrant advances in prices, buying must now be purely speculative, and also depend upon speculation for its results. So long as the ball is kept flying it will be all right, but if play is continued at the pace it has now attained very much longer, its fall is likely to do some damage, just as was the case in the boom years, of which the bulls are making so much capital now.

IF the United States does finally determine to draw gold from Europe this fall, London, which will must probably have to meet the demand, is fully prepared. There is there a superabundance of loanable funds, and an outflow that would tend to put up rates would not be altogether unwelcome. A temperate London journal thus sums up the Chinese situation: "Russia has gone far in her monopolist policy, perhaps further than she intended, and assuming that Lord Salisbury meant what he said when he declared that commercial liberty must be respected at all costs, it remains to be seen whether an understanding can be arrived at by which legitimate Russian ambitions should be reconciled with substantial liberty of trade and enterprise. The situation is critical." One of the most encouraging pieces of news that comes from Europe this week is that there is now a prospect of a fiscal agreement being reached between Austria and Hungary. If it proves to be true, it would do much to relieve the situation, which has been clouded for a long time by the possibilities for evil that would accompany a final abandonment of negotiations. Canadian foreign trade of the last fiscal year was, like our own, the largest in the history of the country. The imports amounted to $130,600,000, and the exports to $158,500,000. The year of previous highest record was 1893, with $129,000,000 of imports and $118,500,000 of exports. The adjournment of the Brussel's conference on sugar bounties removes any lingering hope that may have existed that those bounties will be removed. It was evident that the delegates from France, Germany, Austria and Russia were only present to avail themselves of any advantage that might be seized for their own people, but without any intention of making any concessions whatever. Consequently, while the conference provided for their reassemblage, there is no likelihood that they will meet again. Argentine finance is a continual source of anxiety. The following is a local opinion, that of "The Nacion": "The financial situation is becoming every day more difficult, and we cannot imagine how the tangled skein is to be unravelled if things are to continue much longer in their present state of inaction, depression, and uncertainty. The obligations of the Treasury are being piled up in a way that inspires positive terror; every day it is in greater straits, and nobody knows if it may not soon lack money to meet even the most indispensable necessities of the administration if extraordinary measures be not adopted to meet the equally extraordinary expenditure that has to be faced."

CHARGES FOR VAULT PRIVILEGES.

DURING the past two or three years builders have chafed considerably under the charge of two dollars per superficial foot made by the city for the privilege of covering over front areas with glass and iron tiling, believing that in the majority of cases such a charge is excessive and unjust. The uniform charge stood at seventy-five cents for many years, until the last Commissioner of Public Works suddenly, and without notice, increased the charge to two dollars. The authority to make a charge for vault privileges is contained in Section 321 of the Revised City Ordinances of 1897, these ordinances being continued in force under the provisions of the new charter. The person who applies for a vault permit is required to pay to the Commissioner of Highways "such sum as he shall certify in the said permission to be a just compensation to the city for such privilege, calculated at the rate of not less than thirty cents, nor more than two dollars per foot, for each square foot of ground mentioned as required for such vault."

The wording and the rate to be charged have remained unaltered for many years past. Clearly the intent of the ordinance is that the charge for vault permits shall be graded in proportion to the importance and value of the location. The practice in the past is in support of this view. The history of the ordinance and of the regulations under the same is somewhat obscure, but it seems that the original ordinance was passed some forty or fifty years ago, and the price per square foot was then established at twenty-five cents for vaults in front of buildings occupied as private dwellings; fifty cents for buildings occupied in part as stores and in part as dwellings; and seventy-five cents for buildings occupied entirely for business purposes. Later on a change was made to fifty and seventy-five cents. Still later on the ordinance was amended, making the charges thirty cents to two dollars a square foot. Under the discretion thus conferred a uniform rate of seventy-five cents was charged, and no attempt was or has ever been made to grade the prices under the existing ordinance. The price continued at seventy-five cents for many years, and until raised to two dollars.

This increase of price to the maximum charge allowed by the ordinance was one of a number of contributing causes to the defeat of the reform party at the ensuing municipal election. Not only was this highest rate enforced regardless of the value of a lot, but an attempt was made to compel a like payment for the space covered over by open iron gratings, although no charge had ever before been made for area-space when covered by such open gratings. Each lot owner has a right to an open area beyond the building line; it is only when the space is solidly covered over, thus converting the area into an enclosed space for storage or other uses in connection with the building, that the city charge for a vault privilege applies, and not when an open area is bridged over by a grating that is itself open to the outer air. Vaults underneath a sidewalk are, of course, enclosed space, but the greater number of buildings do not have sidewalk vaults; they only have area vaults. Methods have to be adopted to put money in the city treasury, and the charge for vault privileges is one of them. Vaults are not undesirable, in fact a sidewalk laid on top of the solid masonry arches of the vault construction is more permanent and gives an evener surface to walk upon than when laid upon earth.

Conditions have much changed since the original ordinance was enacted. The price of choice lots has enormously increased with the growth of New York, so that the highest charge named in the ordinances is too low for vault privileges in certain localities, while the lowest price is now only such as would be proper in the outlying portions of the Greater New York territory. Where lots are each worth one hundred thousand dollars or more, two dollars a foot is too cheap for sidewalk or area vault privileges. On lower Broadway five dollars would be none too much, while in Avenue D, two dollars is more than double too much. Fulton street, in the Borough of Brooklyn, should

pay a higher rate than Bushwick avenue, and on streets in Long Island City a higher rate could justly be demanded than in the Borough of Richmond. In other words, there should be graded prices established, and so arranged that the city shall get at least its present revenue from this source, or even more, by putting the heavier burden on lots that can well afford an increase and benefiting the cheaper lots in proportion to their lesser values. In every way the city should act fairly and even generously by those who are engaged in improving real estate, for new buildings add to the permanent tax income of the city. The money received from vault privileges goes into the Sinking Fund, and therefore is not used in carrying on the city government.

It is entirely within the power of the Commissioner of Highways, Mr. James P. Keating, to establish graded prices for vault privileges, and he has expressed the opinion that the uniform charge of two dollars a square foot is unjustly high on moderate priced lots, while on high priced lots the rate is too low in fairness to the city. He is considering the advisability of asking the Municipal Assembly to amend the ordinance by striking out therefrom all reference to the rate to be charged, and authorizing him to regulate the charges. It would probably be more satisfactory to the building interests if a maximum and minimum rate, whatever they may be placed at, are continued in the ordinance, the variation in prices to be in accordance with regulations to be established by the Commissioner in proportion to the value of lots. For example, lots worth three thousand dollars or less each should come under a charge of thirty cents; from three thousand to five thousand dollars, fifty cents; from five thousand to ten thousand dollars, seventy-five cents; and so on up to a five dollar rate. Where vaults are made two stories in depth, or more than ten feet in depth below the curb, the rate charged should be increased fifty per centum.

The question may be asked, how would the value of the lots be determined? The answer to this question is, by requiring each applicant for a vault permit to state under oath, on suitable blanks provided for that purpose, what is the market value of the lot, to the best of his knowledge and belief, in front of which vault space is desired. These affidavits should be received as conclusive of the value, unless the Commissioner of Highways should have cause to doubt the correctness of the statement, and then he should be empowered to revise and correct the same. Another plan would be to lay out on a map of Greater New York plot lines with prices to be charged per square foot for vault privilege in each plot, but it would be a very difficult task to mark out plots where one rate would be entirely just on all the lots therein.

Commissioner Keating's official duty is to protect the city which he serves, but his personal feelings are of the friendliest kind toward the building interests, with which he has so long connected, and he may be relied upon to do the fair and just thing by all parties in interest. It will probably not be long before a satisfactory solution of the vexatious problem of permit charges for vault privileges will be arrived at.

CORRESPONDENCE.

LANDLORDS' GRIEVANCES.

To the Editor of THE RECORD AND GUIDE:

Dear Sir: One reads in the columns of the "Record and Guide" letters and articles referring to questions of importance concerning real property, but no one seems to touch upon the hardships owners are suffering nowadays from wilful destruction of property by tenants and the even greater hardship from the neglect to pay rent. It is amazing the enormous loss owners suffer from tenants who "beat" the landlord after wrecking the premises. Isn't it time that our legislators or some one gave this matter some thought? There is scarcely a session of the Legislature when some new imposition or duty is not cast on the owner of property generally to please the home constituents of the legislator or for his personal glory, but the thought of making tenants amenable for any proper obligation never seems to occur.

I speak more particularly of "flat property," which now forms so large a part of our real estate. It is quite impossible in our large city to follow up each applicant's record in renting small apartments, and after getting the usual amount of "free rent"—demanding new paper, paint, and paying a small deposit—the "flat beat" begins to "work" his landlord or the agent till he is comfortably in arrears. To dispossess means an additional expense, and no redress. After three days' notice (which should be the limit) the justice deliberately extends the time perhaps another week, or longer if he feels so disposed.

The protest of the landlord that his rooms have been damaged and his rent months in arrear goes for nothing. At last, when the justice has carried his indulgence to the tenant—for which, however, he has no warrant in law—as far as he cares to, the patient owner must pay some one again to carry the tenant's goods out, and the delinquent has only to place them on his van and ride merrily away. Meanwhile the Tax Department want the taxes paid just the same, and whether your building is vacant or not you must pay up; and the justices who are paid from the same taxes seem to use every means to uphold tenants in their wrongdoing. Apartments newly decorated are ruined and unfit for habitation and wilfully defaced, rents are lost, and expenses of dispossess incurred without a particle of redress.

Is this practice a kindness to tenants, or is it beneficial to the values of property? What will be the ultimate end of this method of administering the law? Is it not time that our public departments, which are so assiduous in pursuing owners, took up the question of making tenants keep their rooms clean and thus letting them realize that they have some obligations, too? And is it not time that tenants were compelled to pay rent when due or vacate at once without expense to owners? Again, should not owners have some peremptory remedy against any one defacing rooms? Would it not be wise to enact a law that each place rented should be inspected—by a notary, let us say—a certificate given of cleanliness for a nominal sum and require the place left as found?

Something should be done which would impose a duty on those hiring—compelling payment of rent and a return of the rooms in a proper condition. The present state of affairs is really worthy of consideration—serious consideration—and landlords deserve at least some remedy against existing evils. Tenants recklessly hire expensive places far beyond their means, and which they are well aware they cannot pay for, and, knowing that owners have no remedy, find it easy to move again after they have "stacked up" all the arrears they can.

It would be an interesting question to learn what a mass of money is annually lost to owners by people who beat them out of it.

Isn't it time these questions were given a little light and more consideration by readers of the "Record and Guide?"

Yours truly, T. J. H.

New York, August 16, 1898.

WAR TAX QUERIES.

It will be remembered that the Commissioner of Internal Revenue at Washington decided some time since that a deed of conveyance of real estate on which there was a mortgage outstanding was taxable to the full value of the property, and not to the value of the equity conveyed, and that ruling now governs. Collector Treat of this city has always contended that only the equity was taxable. Recently, Mr. Yorke Allen, attorney, called his attention to a decision of the U. S. Circuit Court, which seems to sustain his position and which he has made the subject of a communication to Washington with the view of ascertaining whether it will cause the Department to modify its opinion. The minute of the case as prepared by Mr. Allen is as follows:

United States vs. Griswold, 8 Fed. R., 556 (1881). Conveyance of land sold subject to mortgage should be taxed for the equity only. The decision in the above-entitled action was rendered by the Circuit Court of the United States in 1881 on the paragraph of the War Tax Law of 1864 on Conveyances, which paragraph is in wording identical with the law of 1898, except as to the rate imposed.

The facts are as follows: The action was a bill in equity to set aside a conveyance of property made by defendant. The grounds alleged being: 1. That the conveyance was made in fraud of creditors. 2. That the conveyance was insufficiently stamped with intent to evade the provisions of the Revenue Law, and was therefore void. The property conveyed was worth between $40,000 and $50,000, and was sold for about $11,000, subject to an outstanding mortgage of $12,000. The instrument bore stamps for $11,000. The court declined to consider the question as to the effect of failure to sufficiently stamp the deed, holding that stamps for $11,000 were sufficient. The following is taken from the opinion: "It is claimed by the plaintiff that the conveyances in question are all insufficiently stamped, and are therefore void. As the Court has found otherwise, because the stamps placed upon them were sufficient for actual 'consideration' upon which they are made, it is not necessary to decide questions made in this connection."

Yesterday an opinion was received from Washington to the effect that a receipt in this form: "Received from ———— ten dollars ($10) in payment of rent due Aug. 1, 1898" was not subject to taxation. Regarding a lease made prior to July 1, the Department held, "As the lease was duly executed, delivered, and in full force prior to July 1, 1898, it is not necessary that the lease should be stamped. Although these receipts refer to this lease, they are exempt from taxation because they in themselves are not memorandums of a letting, hiring, etc., under the lease clause of the act of June 13, 1898." There have been besides several opinions as to rent receipts, but they did not in any particular vary the position previously taken by the Department and given in preceding issues of this paper.

A Washington dispatch, under date of August 19th, says the following additional rulings have been made by the Commissioner of Internal Revenue:

A bond filed by order of court to obtain a decree or order for the sale of real estate is a bond given in a legal proceeding and is exempt from tax.

Mere agreements to build houses are not taxable, but if bonds are included for the faithful performance of work or contracts they are subject to tax as bonds.

A receipt for rent for certain premises for a certain term, with no other recitals, does not require a stamp.

To the Editor of THE RECORD AND GUIDE:

Is an agent compelled by law to give receipt for monthly rent? 2. If tenant holds possession does not that show receipt of rent? 3. Does a receipt of money received without a contract require a stamp?

Answer.—1. No. 2. No. 3. No.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

1. Does the new law compel the landlord or his agent to give receipts for rent when such payments are made? 2. Would not a witness to the payment of rent suffice? 3. Must a duplicate or copy of lease made now have a 25-cent revenue stamp affixed, or does the original alone suffice?

Answer.—1. No. 2. Yes. 3. A duplicate of lease made now should be stamped.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

I enclose this form of lease to comply with the new revenue laws applying to receipts for monthly tenants:

This is to certify that I, ..., have hired and leased from ....., agent, and the said ....., agent, has leased to the said ..... for the purpose of ..... without power or privilege to sublet, underlet or assign this lease, the premises ..... for the term of one year, from the ..... day of ....., 1898, at the total rent or sum of ..... dollars, payable ..... And the said ..... further promises, as part of this agreement, to make punctual payment of the rent aforesaid, and to perform all other obligations due and expected from tenants by custom and usage. Any default on the part of the tenant will make it optional with the said ....., agent, to nullify this yearly lease and to substitute a monthly or other term, or to recover possession of said premises according to law. This lease may be terminated by either party upon giving ten (10) days notice in writing of such intention.

In witness whereof the parties to this lease have hereunto set their hands this ..... day of ....., 1898.

1. What is your opinion of the same? 2. In case of a yearly tenant, where tenancy began prior to July 31, 1898, and still, of course, continues, do you hold that that lease must now be stamped? 3. His term having still several months to run, the receipts given him for monthly payments surely do not require a stamp. 4. Or should a new lease covering balance of term be executed and stamped?

Answer.—1. It is a good form. Simple receipts indorsed upon it will not require a stamp. 2. I presume you mean that the tenancy began prior to July 1. The tax went into operation July 1, and leases executed prior to that date do not require a stamp. 3. They do not, if they simply acknowledge receipt of money. 4. The law does not require it.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Kindly inform me through the next issue of your paper (1), if rent receipts, like the one enclosed: "Rents due and payable on the first of each month. Brooklyn, N. Y., Aug. 13th, 1898. Received from Mr. John Doe, the sum of forty-five dollars, as rent for second apartment, in building known as No. —— 64th st., Brooklyn, N. Y., for the month of August, 1898. John Doe," are taxable? also (2) if building contracts are taxable, and if so the value of stamp required?

Answer.—(1). I think they are, unless a written lease of the apartment exists. (2). No. Building contracts are not mentioned in the act.—Law Editor.

Questions and Answers.

CHATTEL MORTGAGES.

To the Editor of THE RECORD AND GUIDE:

Suppose a chattel mortgage is filed on the 15th August, 1896, and renewed on August 10, 1897, when must it be refiled in 1898, before 15th or before the 10th day of August?

Answer.—Before the 15th will be sufficient.—Law Editor.

LIFE TENANT AND REMAINDERMAN.

To the Editor of THE RECORD AND GUIDE:

A, dying, leaves B a life interest in a certain piece of leasehold property, subject to a mortgage. When B dies, the interest in the leasehold is to go, according to the will, to C. 1. Suppose B neglects to keep property in repair or does not pay the taxes or interest or ground rent, what can C do? What rights, if any, has he? 2. Suppose the mortgages which was on the property at A's death falls due. Who is to arrange to pay it? (legally). 3. Has C the right and power to sell his interest, or has he any interest in the property to sell? 4. How would the stamp tax be arrived at—a leasehold subject to a mortgage and a life tenancy?

Answer.—It is the duty of B, the life tenant, to keep the property in repair, and pay the taxes, interest and ground rent. If he does not do so, C may bring an action against him of "waste," and in this action a receiver of the property may be appointed who will take the rents, and apply so much of them as may be necessary for repairs, taxes, interest on mortgage and ground rent. 2. The proper way is for B and C to pay it off, each contributing an amount proportionate to his interest in the property. If either one pays the whole, upon the failure of the other to contribute, he has a remedy at law against the other to compel him to contribute. 3. Yes. He has what is called the remainder after the termination of B's life estate. 4. Your question is not definite. If B now executes a lease the mortgage is not taken into consideration. The stamp must be 25 cents, 50 cents or $1.00, according as the lease is for one year or less, or between one and three years or over three years. If a grantor, owning a leasehold subject to mortgage, should now make a deed, giving a life estate in the same to B, and the remainder to C, the deed would require a stamp in accordance with the value of the leasehold, not deducting the amount of the mortgage. If the question means what stamp is to be affixed if C wishes to sell his interest, the answer is, a stamp in accordance with the value of his interest, which can easily be arrived at by computation, the value of the leasehold being determined.—Law Editor.

LANDLORD AND TENANT.

To the Editor of THE RECORD AND GUIDE:

Kindly inform me through the columns of your paper, (1), whether a landlord can dispossess a tenant (storekeeper) against whom he has no cause for complaint before the 1st day of May, no lease having been made? (2). A builder has erected a row of houses and has put stores in the ground floor of each. A tradesman has hired one of the stores from builder's agent and builder's agent has promised that none of the remaining stores shall be let for the same line of business as that which said tradesman intended using the store for. After having been in the place for about one week the tradesman discovered that the store directly next to his has been let for a similar business to that which he carried on. Now, has this tradesman any chance to recover damages from the landlord for this breach of promise, no agreement in writing having been made at the time the store was rented?

Answer.—(1). If there was no agreement for a monthly hiring I am of the opinion that, under the law, the hiring was until the first of the next May, and if the rent is paid the landlord cannot dispossess the tenant until that date. (2). I think not.—Law Editor.

LAWYER'S FEE FOR COLLECTION.

To the Editor of THE RECORD AND GUIDE:

Will you kindly pass an opinion on this case: I went to a lawyer with a chattel mortgage with this request—"This party owes me $350.00, which is due on August 4th. If this is not paid on that date will you please proceed according to law to foreclose the mortgage if the money is not forthcoming." He notified the party in question that the case is in his hands and the money must be paid at his office to receive his discharge piece. Party paid the money on day it was due at his office. What would be considered a proper charge in this case? Can that be construed into a "bad debt" collection? (2). Also, does the amount of money due on the mortgage alter the cost of the services for drawing or filing of mortgage? I wish to be absolutely fair, and will thank you for an answer, so I will not be guilty of any injustice to my lawyer.

Answer.—(1). It appears that you would probably have received your money on the day it was due, if you had not employed a lawyer. But as you employed a lawyer he is entitled to a reasonable compensation. The ordinary fee of a collection agency in such a case as yours would be "Collections made on single notice or demand, five per cent. on the first $100; two and one-half per cent. on the excess of $100 to $500." This is taken from "the rules and terms" of a well-known collection agency in Manhattan Borough. This rate would make the collection fee in your case $11.25. But lawyers usually charge higher fees for collections than collection agencies, and their charges are not uniform. The usual charge by lawyers for collection does not exceed ten per cent. In your case a charge of more than $35.00 would be excessive. It cannot be construed to be a "bad debt" collection. (2). No. The ordinary charge for simply drawing an ordinary chattel mortgage is from $2.50 up, according to the length of the schedule of the goods mortgaged.—Law Editor.

THE MUNICIPAL ASSEMBLY.

Owing to the want of a quorum, no action was taken by the Board of Public Improvements on the proposed map of the section east of the Bronx on Wednesday last. The matter will come before the Board again on the 30th inst.

Below is a summary of the busines directly affecting interests of real estate owners in the boroughs of Manhattan and the Bronx, which came before the Municipal Assembly at its meeting on Tuesday last:

Audubon avenue, between 166th and 168th streets, laying water main. Referred to Board of Public Improvements.

The Real Estate Market

Real Estate Market.

The private sales' market this week has revealed a good demand for vacant property suitable for improvement by the erection of flats or apartments thereon, announcement having been made of the closing of contracts for several such parcels in the upper portions of Manhattan. The disposal of the Worth street property, mentioned below, so soon after its sale at foreclosure, is another sign favoring the expectation of an improved market in the near future. The number of transactions given in our Gossip is 34, with the considerations accompanying 12 of them and amounting to $374,500. This is nothing more than a normal showing for the time of year; it is only the circumstances mentioned above that give it whatever importance it has.

The following are the comparative tables for the New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897:

The only interesting incident of the auction market this week was the sale by Philip A. Smyth, of the Horsfield estate, consisting of three downtown east side tenement parcels, and some other parcels at Flushing. The first were in demand, as was indicated by the fact that although professional dealers were among the bidders they did not secure the properties. A plot on Valentine avenue, east side, 701.6 feet north of 180th street, announced for sale at foreclosure, was withdrawn, as were also No. 860 3d avenue and No. 242 East 50th street, which had been ordered sold by the sheriff. The only adjournment to a date beyond the coming week was that of a lot on St. Nicholas place, to a day in September.

Charles Buermann & Co. has sold for Hahn Bros., 168 Bleecker street, a 3-story double brick flat, 25x62x100, to Maria Hertling, for $7,200.

OUT OF TOWN.

Karl M. Wallach & Son report an out-of-town transaction in the following words: We have sold the property, 100x100, on the northeast corner of Orient and Silver streets, Bayonne, N. J., and have purchasel the corner of Morris and Ocean avenues, 210x300, with three 3-story cottages at Long Branch, N. J.

REAL ESTATE NOTES.

Cars are to be run on 6th avenue, between 14th and 23d streets, to-day.

The Finance Committees of the Municipal Assembly have reported recommending a tax rate on realty for this year of 2.01.

Thomas Martin, of Brooklyn, is reported to have purchased for improvement, a plot 200x100 on the north side of 116th st, 200 feet east of 8th avenue.

The West End Association, represented by Cyrus Clark, and other protective organizations, are still fighting against the four tracks on Amsterdam avenue, to protect the lives and property of the people along the avenue. This week they induced Acting Mayor Guggenheimer to urge on the corporation counsel to take action to prevent more than two tracks being laid. Alderman Okie offered the following resolution in the Board of Aldermen on Tuesday, but failed to secure its passage: "Resolved, That the Corporation Counsel be and is hereby requested to strenuously oppose any action upon the part of any railroad company which if successful would result in the operation of street cars propelled by electricity upon more than two tracks in Amsterdam avenue."

Notice to Property Owners.

LOCAL IMPROVEMENTS.

Hearings on petitions for local improvements, etc., will be given by the several local boards interested, as stated below. The petitions themselves are now on file for inspection in the office of the President of the Borough of Manhattan, in the City Hall, which is also the place where the hearings will be held:

Local Board, 13th District:

Local Board, 19th District:

East 116th st, repairing sidewalk in front of Nos, 20 and 22. Aug. 23d, at 12 m.

The Building Trades

Building Material Market.

Little, if any, change has occurred in the building material market during the week, aside from an increase in the general feeling of confidence. The outlook for the fall trade is much improved. The most important happenings in the various markets are these: Brick.—The arrivals of Hudson River brick amounted to 50 barges. There went out 59 barges. Prices were $5 and $6.25. Cement.—Rosendale is at 65c. and 75c. Domestic Portland is in exceptionally good demand, and there is not enough to satisfy the inquiry. Lath.—No Eastern spruce lath has been in. Prices are $1.60 to arrive. There is a good call. Lime.—Slate and jointa show no change. Nails.—Prices in both the cut and wire nail markets are very firm, but show no quotable advance, although a strengthening of values is looked for in the near future. Inquiry is fairly strong, but the firm condition of the market is due to the restoration of business confidence.

OF INTEREST TO THE BUILDING TRADES

Frank E. Albinger, architect, has removed from 1133 Broadway to 1414 Madison avenue.

Chris. Abele, No. 537 West 50th street, is summering with his family in Ulster County, N. Y.

Frank T. Cornell, No. 281 4th avenue, has drawn sketches for a handsome 3-story frame and stone summer residence on the St. Lawrence River.

J. M. D. Mozart, representative of M. Feigel & Bro., No. 149 Mercer street, has left for a three weeks' stay at the Hilldale House, Hurleyville, Sullivan County, N. Y.

The resolution to secure the appointment of a Building Code Commission came up on the report of a committee in the Board of Aldermen on Tuesday last, but failed of action. It will probably come up again at the next meeting of the Board.

The general contract for the 11-story fireproof hotel to be erected for the Matthew Byrnes estate on the southeast corner of 5th avenue and 45th street, from plans by J. O'Rourke & Sons, No. 7 Clinton street, Newark, at a cost of $750,000, has been awarded to Thos. J. Reilly, No. 170 5th avenue.

Bridge Commissioner Shea has approved the contract for the Willis Avenue Bridge across the Harlem River at 1st avenue, Borough of Manhattan, and Willis avenue, Borough of the Bronx. The contract has been awarded to John C. Rodgers, who built the second section of the Speedway, at $1,036,191.92. The bridge is to be completed within five hundred days.

The Board of Managers of the Sanitarium for Hebrew Children has issued an appeal for funds to aid in maintaining the free excursions and the Sanitarium at Rockaway Park. The requests for admission largely exceed those of any preceding year. The president of the board is Nathan Lewis, No. 58 Broadway; the honorary secretary, Joseph Davis, No. 148 Wooster street; and the treasurer, Hezekiah Kohn, No. 3 West 39th street.

Since the reduction of the initiation fee from $40 to $10 two months ago 56 new names have been added to the membership roll of the Association of Master Plumbers. The following gentlemen were admitted at last Tuesday's meeting: Owen Costello, No. 359 East 68th street; Alex. R. Hutchinson, No. 935 Amsterdam avenue; Duffy & McConnell, No. 87 Bleecker street; E. J. Hurley, No. 901 Boulevard; W. J. Fowler, No. 2157 7th avenue; W. J. Brady, No. 1662 Broadway; J. D. Duffy, No. 150 East 23d street; T. A. Clenke, No. 192 Lexington avenue; and E. Auerbach, No. 1602 Avenue A.

According to a newspaper report circulated this week, a strike was threatened on certain city schools under construction or repair, owing to the employment by the contractors on them of carpenters who are not citizens and to the payment of less than union wages. The report further stated that a committee from the Board of Delegates had called on Superintendent C. B. J. Snyder, who "jollied" the committee, saying that he could not "control the contractors." When asked for particulars concerning the supposed grievances of the union carpenters, Mr. Snyder stated that no grievances had been submitted to him, and that no committee had visited him in respect to any alleged grievances. The law forbids the employment of aliens on public construction work, and Mr. Snyder stated that any alien found at work on a public school building would be promptly discharged. Indeed, any union which applies for a permit to visit schools in the interest of organized labor, receives such a permit, on the sole condition that any violations of law discovered be promptly reported to the superintendent. Such permits have been issued to the Amalgamated Painters and Decorators, and several other unions. It is an easy matter, therefore, to prevent the employment of aliens. As to wages, the law provides that "the prevailing rate of wages" shall be paid on public works. The attempt has been made to interpret this clause as union wages, but the courts have held otherwise, and the legislature has persistently refused to alter the wording of the clause.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXII. AUGUST 27, 1898. 1,589

IT was never more conspicuous than to-day how thoroughly Wall street reflects the temper of the country. This is seen in the fact the same granger securities that are selling at high premiums now, only two years ago were going begging in the 50's and 60's. These securities were not worth less then than they are now; it is only the difference in the mood in which they are regarded that makes them seem so very much more desirable. This variation in the temper of the public has been the cause of the making of a good many fortunes, but it is not the people who sold two years ago and those who are buying now—generically, it may be remarked, they are the same—who make the fortunes, at least not in the stock market. Why people rush in crowds to buy securities at prices beyond their intrinsic worth has always been an interesting study, but a problem of which the solution has yet to be found. Of course no one buys thinking he is paying more than his purchase is worth, but so few take the trouble to examine what they are buying that it amounts to the same thing. The recent increases in dividends are excellent signs of good business and ought to create satisfaction, but to buy securities on those dividends without first ascertaining whether the increased profits can be maintained is very miserable business. However, the general buying public seems to be made that way, so it is useless to argue against it. If anyone wants to know what is the natural course of security values they can turn to English railroad investments, which were rushed up on improving business, and which are, at the close of five years of prosperity, beginning to return declining profits, not because receipts are less, but because expenses grow out of proportion to gains in receipts. Our railroads have been operated on a very economical basis for some years and a more generous treatment of road and rolling stock must soon be begun, especially if we are to have the large growth of business that all expect in the next few years. Such expenses will absorb a considerable part of increased earnings. That such thoughts as these are in the minds of the cautious is shown by the heavy realizing that has been going on for a week or two. It may be taken for granted that, with quotations where they are in the active issues, it is the knowing who are the sellers and the unknowing the buyers. There are always issues that have held back from a movement or to which new developments give improved values, and it is to these that people who find the desire to buy uncontrollable should give their attention and leave those that have already made large advances severely alone.

BRITISH journalism is despairingly trying to ascertain what the policy of its government toward China really is—whether it is the principle of the open commercial door, or, as it has recently intimated, that of the spheres of influence. The government, on the other hand, appears to be afraid to openly announce its acceptance of a policy of any kind, because if it did Russia would set herself to work to trail that policy in the dirt, as she did the "open door" and as she is now doing the "spheres of influence," as witness the closing of Port Arthur and more significant the shutting up of Talienwau, and later the opposition—and successful opposition, too—presented to the granting of new privileges to British enterprise, or the final confirmation to privileges previously promised in the very sections that Great Britain has claimed as peculiarly her own fields of operations. If anything so subtle and deep as Russian policy can be defined, it is that Russia arrogates to herself the duty of dictating what the course of China shall be, and as a necessary preliminary proceeds to embarrass her greatest rival and destroy her influence as much as possible in the eyes of the Chinese foreign office. That British diplomacy consents to be baulked and annoyed in this way is only explicable on the theory that a new situation is expected to arise from the appearance of the United States in the Far East, and that it is better to await its development before determining on a course of action. Without powerful restraining cause, recent events in China could only result in war. To turn from politics to business. Final results of the English railroad business of the first half of the year were not as good as were expected; notwithstanding a considerable increase in gross earnings, the average dividend of all the great companies was, everything allowed, one-half per cent less than in the first half of 1897. Banking, however, proved very profitable, the joint stock banks of London not only paid dividends as large as those paid in the corresponding period of last year, but several of them made substantial increases to the returns to their stockholders. A remarkable report has just been issued on state technical instruction in agriculture in France, which has been carried on for a quarter of a century, at a cost of 4,000,000 fr. a year, and is declared to have been barren of results. The establishment was so elaborate and the public response so small that it contained a professor to about every four pupils, and the graduates, instead of applying the knowledge gained in the schools to the problem of getting a living at practical farming, all demanded government employment. Under the double incentive of a good harvest and prospects for smoothing away the worst of the friction in home politics, prices have improved on the Vienna bourse, and a much more cheerful view of the European commercial situation is possible. From other quarters the reports are of small interest and wanting in bearing on the outlook.

THE appointment of a commission of experts to prepare and report to the Municipal Assembly a Building Code as required by the charter, is sidetracked for the present by reason of the adjournment of the Board of Aldermen to the first Tuesday in October. The resolution providing for the appointment of a Commission, as passed by the Council in the latter part of June, came up for action by the Board of Aldermen on Tuesday last, but was recommitted by the Committee on Law, as several amendments were offered, looking to an increase of members of the commission. The Council resolution provides for eight persons on the commission, namely: one ironworker, one mason, one carpenter, one plumber, one architect, one civil engineer, one underwriter and one representative of the Corporation Counsel. The amendments offered in the Board of Aldermen are to add the Commissioners of Buildings in the Boroughs of Manhattan and Brooklyn, and the President of the Board of Aldermen. If these three officials are added the total number of persons on the commission will be brought up to eleven. In one respect the Council resolution will need to be changed. The time set therein for the commission to make its report is the first day of November. Obviously, the complete work cannot be presented at that time, and the work is of such a character that it cannot be presented in parts; it must come as a whole. However, a request from the commission for an extension of time would in all probability be granted. The commission must not only have sufficient time to do its work well, but public hearings should be given from time to time during the preparation of the code, and the various branches of the building interests be given every opportunity to present their views. We have reason to believe that the commission will not be appointed anyway, until after this fall's election, and that the new Building Code may be looked for in the early spring months of the coming year.

IN the contemplated revision of the Building Law radical measures ought to be taken to suppress unlicensed plumbing. The existing law provides that no person shall be allowed to carry on the trade of master plumber unless he has a certificate of competency from the Examining Board of Plumbers, and a certificate of registration from the Building Department. Any one who engages in the trade of master plumber, or who exposes the sign of plumber or plumbing, without such certificate of competency and registration, is liable to a fine not exceeding $250, or to imprisonment for a term not exceeding three months, or both. So far the law is sufficiently stringent. But the machinery provided for the discovery and punishment of unlicensed work is inadequate. The enforcement of the provisions relating to plumbing is intrusted to the Building Department, which is charged with the duty of inspecting the construction and alteration of all plumbing work, except certain minor repairs. These repairs, for which plans do not have to be filed with the department, form a pretty comprehensive class, measured by quantity. It is chiefly owing to the exemption of this large class of repair work from inspection that the unlicensed plumber is able to exist without coming into contact with the Building Department, a contact which would inevitably mean discovery and prosecution. The extent to which unlicensed plumbing is practised is really surprising, considering the penalties involved. Trow's Business Directory contains a list of master plumbers, covering nine pages. An examination of the first three discloses the

names of 60 unregistered plumbers. If the same proportion holds true of the remaining six pages, its list includes the names and business addresses of no less than 180 persons illegally engaged in the plumbing trade. The actual number of lawbreakers is, of course, much larger, as many persons, janitors, furnace men, tinsmiths and others, do plumbing work without the adjunct of a sign. An up-town janitor, we are told, engages in plumbing as a side issue, having, indeed, two assistants in his employ. The incompetence of plumbers of this description is self-evident. A case has been called to our attention where an unregistered plumber, who was putting in a sink in the cellar, left the waste unvented and running into the fresh air inlet. The business methods of such craftsmen are naturally as obnoxious as their work is incompetent. A dozen Fuller wash tray cocks were recently wiped in by a bogus plumber for one-third the standard price. They were represented as first-class, but were, in reality, second-hand cocks ground out. The complete suppression of unlicensed plumbing is demanded, both as a serious menace to health and on account of the injury which it does to the legitimate trade, for the stealthy lawbreaker is not governed by ordinary rules of competition.

IF there is any truth in the proverb that all things come to those who wait, people whose fortunes are bound up in real estate have established an iron-clad claim upon the benefits of renewed prosperity. Not that real estate has suffered in any greater degree than other staple commodities; indeed, it has stood the shock of panic and the strain of a prolonged depression better than most, and in a manner that proves again that it is the safest and best security for investment even under the most trying conditions. The prospect of better times, however, has come very slowly, and real estate owners and others have been hard pressed by the long dullness. There can be no doubt that we are now close upon a period of activity and advancing prices. The termination of the war has definitely cleared the air of the troubles that have beset the country since 1893. The only danger that remains is the monetary controversy, and that is hardly likely to have again the force it obtained in the last campaign. There is no risk, therefore, in prophesying that we are entering upon a period of prosperity. The enforced economies of the last few years, the large crops and the high prices that have ruled must sooner or later register themselves in general business.

NO one, however, should be disappointed because real estate has not more promptly felt the benefit of better conditions. Old operators are well aware that real estate is the last of the great commodities to respond to better times, even as it is, perhaps, the very last to feel the effect of dullness. It is a slow article, just the reverse of stocks, which move with the readiness of quicksilver. Improvement, therefore, is likely to be slow, but none the less sure. For some time past capital has been most interested in the stock market. Immense sums have been invested in bonds, and for a period yet Wall Street is likely to have the call. The industrial world will probably have its turn next, and then real estate will follow as the final attraction for the investing public.

NEW York City to-day offers greater possibilities to the investor than ever before. There is probably nothing in the world into which a man can put his dollars with safer security and better returns than New York real estate. With common prudence and decent management it is hard to go wrong. There is besides an immense amount of work to be done in the next decade, and enormous sums of money will surely be absorbed. Large areas of the city are ready for reconstruction. We refer not only to lower down-town property, long antequated and relatively unprofitable unless improved, but to real estate whose character and obvious purpose have been completely changed by recent betterments of the surface lines. Beyond the Harlem a new city is arising, unknown to the untraveled Manhattanite, and it is sure to be the seat of great activity. Moreover, we will probably see a new residential district opened up as a successor to the "West Side," and in Brooklyn there is a field for operations which mustn't be overlooked. In all directions the outlook is excellent. We are out of the woods at last, and there is every reason for our offering our readers our hearty congratulations.
